Over the Border?
PLAN MAY BE
IN CANADA NOW.

Dynamiter Traced
Near Boundary Line.

Confident of Capturing
Him Very Soon.

Chicago Police Actively at
Work on Clues.

DIRECT WIRE TO THE TIMES.

CHICAGO, April 25.—[Exclusive
Dispatch.] At least one of the
members of the dynamiting
party charged with wrecking the
bridge at the Los Angeles Times
has been traced across the northern
border of the United States.

David Caplan, according to de-
tectives, has been traced to
Canada, where he is believed to
be in hiding. The police are
confident of capturing him very
soon. The dynamiter was traced
to the city of Chicago, where he
was seen in connection with the
dynamite plot, it is declared to
be a man who is likely to be
arrested in the near future.

Raymond Burns and Captain Wood,
of the Chicago Detective Bureau,
discussed the escape of Caplan
with comparative freedom.
However, said that his men
are not to catch both of the mis-
creants in spite of their temporary
frees.

Caplan, who is a Russian Jew,
came to Chicago with Schmidt
in 1904, and was traced to the
Canadian border. He was seen
several days before the pri-
soning of the dynamite party.
The police are confident of
capturing him very soon.

MR. McNAMAL WATCHED.
The McNamala, wife of Orville
McNamala, one of the three pris-
oners sent to Los Angeles, was
found in the kitchen of her little
flat at No. 414 Sangamon street
last night. Across the street in a
villainous private detective still
the flat under close surveillance.

Attempts to use the telephone in
the house showed that the wife
had been in conversation with
the dynamite party. The police
are confident of capturing him
very soon.

ERBSTEIN MAY ACT.
During the day there were per-
petrated reports that the prepara-
tions for the defense of the three
men in the hiring of Charles
Bergman, one of the lawyers to
act in connection with Clarence
Darrow. Mr. Bergman acted as
attorney for McNamala when he
was arrested a year ago.

NEW IN THEIR CONFIDENCE.
Investigations today showed that
the McNamalas and McNamala
were in talking to local officials
of the Structural Iron Workers
Union, and that they were in
their confidence. No one has
been able to explain the necessity
for so many visits to Chicago
by McNamala, who is connected
with the dynamite plot.

ALTMAN'S POSITION.
Huntman attended an important
labor gathering at Indianapolis
last night that several bombs
were exploded in that city. He
went there with which to conduct
a defense against indictments
that he was not implicated in
the Indianapolis explosion.

plant of the Comopolitan Electric
Company, Twenty-first street and
South Canal street. Altmann tipped
off that he had given the dynamite,
and officers kept watch on the place
to prevent any explosion. In spite
of their efforts a dynamite bomb
was exploded in a manhole and the
police always charged the work to
Ferry, who is expected that the three
men will reach California tomorrow.

Mr. Burns stated that he did not
anticipate any attempt at rescue
and if any were made they would be
futile, as ample precautions had been
taken to guard the prisoners and they
will be smuggled into Los Angeles.

LITTLE MONEY IN SIGHT.
There is considerable talk about the
large defense fund that will be raised
for the McNamaras and McNamala
by the Chicago unions. The local
situation is peculiar, however, according
to labor union men on the inside, who
say that there will be trouble in
securing the desired money by assess-
ment.

The Chicago unions have been
taxed to death lately and many of
their members are going to hesitate
about going down into their pockets
in this case, said one man. Many
will hang back until the atmosphere
is clearer and until it is demonstrated
that the detectives cannot prove their
charges against the men under arrest.
In spite of the bold front of the
Chicago unions, there are a number of
men who are uneasy, because they do
not know just what the evidence is
against the men.

Several contractors present declared
that they had been approached by
members of the Cement Workers Union,
with a demand of from \$100 to \$1,000
a day advance. The unskilled mem-
bers of the union employed on the
jobs are getting \$2.50 a day, and the
skilled members of the board are
getting \$3.75 and the latter \$5.
The cement unionites declared that
if their demands were granted they

base of the American Central
Life Building here, which is being
rebuilt by the Structural Iron Workers
Union have their international head-
quarters.

CONVINCING PROOF.
The fourth suit case according to
Burns, is the one found at the To-
ledo Union Station, and which Burns
said was checked and left there by
McNamala. Burns opened this suit
case with a key that he says he got
from McNamala. It is said the suit
case found at Toledo was empty, and
was used to carry dynamite. Burns
declared he had obtained proof to show
that McNamala had used the suit case
to carry dynamite. He said he had
two lots of the explosive found here
and near this city formed parts of
one thousand pounds of the stuff that
was stolen from the Francis Stone
Quarry at Bloomville, Ohio, January
11.

Burns said he expected to prove
that McNamala and James W. Mc-
Namala were at Bloomville at the
time the dynamite was stolen. The
detective talked freely of the clues
found in the case.

The finding of the unexploded
charge of nitroglycerine enlightened
us as to the methods of the dynam-
ite. The nitro glycerine had a
purpose of bringing about the ex-
plosion. It was a No. 5 dry lat-
ent with an ordinary fifty-cent alarm
clock. It was attached to a wire
with a length of copper. The piece
of copper wire was soldered to the
clock and was in a peculiar way.
The clock was so set that it would
time the alarm went off it would
find with it the piece of copper
wire.

COINCIDENTAL EVIDENCE.
On reaching the board it would
be in contact with a second piece
of copper wire and this would form
a circuit. Sparks would be gener-
ated and the charge of nitro glycerine
would be exploded. Do you see what
a convincing proof I have when I
tell you that this brand of nitro gly-
cerine, this very make of alarm clock,
this precise kind of copper wire,
this combined arrangement of board
and wire and clock, is precisely the
same as was used in the dynamite
plot of the Los Angeles Times Building.
The attempted destruction of the Ze-
munda and Harrison Gray Otis
houses is a coincidence.

The records seized in the office
and safe of the International Associa-
tion of Bridge and Structural Iron
Workers, which was taken over by
Burns, contain copies of receipts for
large sums of money paid to James
W. McNamala and other documents
that are of great importance. It is
said that John J. McNamala was
the directing force of the conspiracy
and that the other two were mem-
bers of the working crew.

In my possession, then, from information
intended to blow up several places
in Detroit and Toledo and that plans
for the attack were under way at the
time of the arrest.

BURNS TELLS METHODS.
"You ask me to tell the secret of
the methods by which I and my men
solved the mystery of this succession
of astounding crimes after the Pink-
erton Agency and worked on it for
months without a glimmer of success?
Well, I can only say that the solu-
tion of the mystery was due in part
to induction. After working a long time
on the Peoria, Los Angeles, Milwa-
ukee and American Bridge Company
cases, it came to me suddenly that
perhaps these crimes were part of a
labor union plot against certain firms
in the structural iron business.

The establishing of the surprising
coincidences of nitroglycerine and
dynamite used, in the similarity of
clocks, copper wire and other appar-
atus furnished other clues. The public
can form no idea of the immense
amount of evidence gathered against
these men by my agents who slept for
scores of days and nights at the same
hotels with them, followed them from
place to place, relieving one another,
of course, so as not to be recognized,
examining hotel registers, visiting dy-
namite and nitroglycerine plants, clock
makers and wire factories, attending
meetings of labor unions, keeping
watch on supposedly doomed plants,
factories and mines, getting specimens
of handwriting and conferring with
the police and with threatened man-
ufacturers in many cities.

OTHER WITNESSES.
Attorney W. C. Appleman was the
next witness called, probably to learn
the whereabouts of a Miss Mary C.
Dye, formerly private secretary for
McNamala. He stated that he had
been in the city of Chicago, where he
was a legal claim of \$200 against
McNamala, told Appleman that she had
important information about McNamala
and that she was in the city of Chicago.
He said that she was in the city of
Chicago, where she was a legal claim
of \$200 against McNamala.

BURNS TELLS HOW HE
WORKED UP THE CASE.
[BY DIRECT WIRE TO THE TIMES.]
INDIANAPOLIS, April 25.—[Ex-
clusive Dispatch.] Detective Burns
today gave an interesting history of
the finding of evidence in the dynamite
cases at Toledo and other places.
He said that he had found three
witnesses at Toledo, Ohio, who said
they saw McNamala and James W.
McNamala at the place and that the
two men went to that place fre-
quently to get supplies of dynamite
from a shed where hundreds of
pounds of the explosive were stored.
Burns said he found witnesses at
Toledo who declared that McNamala
and James W. McNamala, under as-
sumed names, were at that city April
11 when the two men carried four
bags of dynamite. Burns said he
found the three witnesses at Toledo.

NO MORE AID
TO UNIONITES.
Sacramento Plasterers Tire of
Financing Strike in Los
Angeles.

[BY DIRECT WIRE TO THE TIMES.]
SACRAMENTO (Cal.) April
25.—[Exclusive Dispatch.] The
Plasterers' Union has voted to
discontinue paying assessments
to Los Angeles strikers. Several
of the strongest unions have
taken similar action.

OFF DYNAMITER PLOT.
Huntman is credited with having
made a confidential statement at
that a man named Ferry had
been in the city of Chicago, where
he was a legal claim of \$200
against McNamala.

ALTMAN'S POSITION.
Huntman attended an important
labor gathering at Indianapolis
last night that several bombs
were exploded in that city. He
went there with which to conduct
a defense against indictments
that he was not implicated in
the Indianapolis explosion.

MASTER BUILDERS FIRM AGAINST DEMANDS OF TRADE UNIONS.

DEFERRED TO resist the efforts
of labor unions to destroy the open
shop and run the works themselves,
men who are financing building pro-
jects in Los Angeles have announced
their intention to stand with the con-
tractors even if it should necessitate
temporary delay.

This fact was brought out at a meet-
ing of the Master Builders' Associa-
tion in the Stimson building last night.
The members of the association, which
includes all of the leading contractors
of the city, unanimously agreed to
stand by the resolutions adopted at
previous meetings refusing the de-
mands of the various building trades
unions for increased wages under
threats of walkouts.

A partial canvass of non-union labor-
ers, skilled and unskilled, which has
been made by the association, shows
that there are plenty to handle all the
work which the unions might try to
stop by striking.

Several contractors present declared
that they had been approached by
members of the Cement Workers Union,
with a demand of from \$100 to \$1,000
a day advance. The unskilled mem-
bers of the union employed on the
jobs are getting \$2.50 a day, and the
skilled members of the board are
getting \$3.75 and the latter \$5.
The cement unionites declared that
if their demands were granted they

base of the American Central

CALIFORNIA LEADER IN IT.

(Continued from First Page.)

Iron Works and the Llewellyn Iron
Works are a Chicago present.

Whether this suggestion was the
inspiration for the second Los An-
geles attempt is not apparent, but
following the Californian's visit to
the East, McNamala, it is alleged, re-
ceived orders to proceed to Los An-
geles. He is quoted as saying the or-
ders came from "Bryce".

He is said to admit he departed
westward carrying with him twelve
quarts of explosives, ten quarts in can-
s and two quarts in a value. This ex-
plosive was furnished to him by
McNamala, and was merely pre-
paring in the case that we should be
forced to act.

"There are plenty of non-union men
in the city to take the jobs should
the union men walk out. Among the
best men we now have on the jobs
are non-union men. Many of them
are more skilled and better workers."

C. J. Kubach and C. Leonard, lead-
ing contractors, declared that never
before in the history of the building
industry here have there been so many
applications for work among skilled
non-union men. Letters, they declare,
are pouring in daily from eastern
cities. They are from men who de-
sire to locate in Los Angeles.

Two new members were added to
the advisory board, which, in the
past, has consisted of five men. They
are J. V. McNeil and G. P. Barber.
The other members of the board are:
J. F. Hall, chairman; C. J. Kubach,
W. Crowell, F. E. Engstrom and
George H. Alperer.

TO IDENTIFY BRYCE.
MRS. INGERSOLL COMES.
Mrs. D. H. Ingersoll of San Fran-
cisco, with whom J. W. McNamala
lived for twelve days while he was
plotting with "Cocky" Schmidt to pro-
ceed to the bridge to be used on the
Bridges, reached the city yesterday
morning and is at the Hotel Cham-
paign. She came at the instance of At-
torney McNamala, when he ar-
rived in the city. Mrs. Ingersoll would not
discuss the case.

In addition to Mrs. Ingersoll several
others may be called later to identify
the man. One of them is Harry Piper,
a former jockey of Oakland, who saw
McNamala, then known as J. B. Bryce,
on the launch Pastime, which the con-
spirators had disguised with the name
"Pericles." Subsequently G. H. Phil-
lips, William Flynn and Manuel Silva,
all employees of the powder works at
Giant, saw the men, and will be able
to identify Bryce, now McNamala.

Probably the most important wit-
ness outside of these is A. Douglas
Burrows of Oakland, who, with E.
Howard Master, owned the Pastime.
Burrows was taken over by the dynam-
ite men, and received a deposit of
\$500 for the purpose of identifying
the prisoner, McNamala, when he
arrives in the city.

HABES CORPUS WHIT.
READY TO SPRING ON TEXAS.
[BY DIRECT WIRE TO THE TIMES.]
EL PASO (Tex.) April 25.—[Ex-
clusive Dispatch.] Henry M. Walk-
er, editor of the Labor Advocate,
and secretary of the Federation of
Labor, today swore out a writ of
habeas corpus in the District Court
at El Paso, Texas, for the release of
William Burns, who is in custody of
the Bridge and Structural Iron Workers
Union, who was expected to pass
through here in custody of William
Burns en route to Los Angeles. Mc-
Namala was taken over by the dynam-
ite men, and received a deposit of
\$500 for the purpose of identifying
the prisoner, McNamala, when he
arrives in the city.

Hilton May Be Counsel.
Ex-Judge O. M. Hilton of Pomona,
who assisted in the defense of Meyer
Haywood and Pettibone at Boise on
a charge of assassinating Gov. Steyer-
nberg, being associated with Clarence
Darrow at Chicago, is at the Alex-
andria on telegraphic request of J. B.
Ryan, president of the Structural Iron
workers Union.

Yesterday Hilton conferred with a
number of local unionites. It is under-
stood that he and Job Harriman will
be part of the counsel for the dynam-
iters when they reach the city.

MOTHER REAL DETECTIVE.
Traces Abductor of Her Daughter
Across Continent and Now Seeks for
Possession of Child in Oakland.

[BY DIRECT WIRE TO THE TIMES.]
SAN FRANCISCO, April 25.—[Ex-
clusive Dispatch.] The first step
toward recovery of her 13-year-old
daughter, Alice Jennison, who was
kidnapped by the father, Frank E.
Jennison, from Bangor, Me. and hur-
ried across the continent, the mother
following the trail with a true de-
tective instinct, was taken by Mrs.
Elizabeth D. Jennison today.

The little girl, who was served
on the Sisters of the Holy Name in Oak-
land, where the child has been for
the last two months, the order was
issued by Justice Beatty and made
returnable before the Superior Court
of Alameda county. The sisters have
McNamala and the child in their
custody until the child is placed in
the hands of her mother.

At an early hour this morning Mrs.
Jennison conferred with the court and
stationed herself outside of the court
for the purpose of identifying Jen-
nison, should he make any attempt to
see the child. As was expected, he
arrived there shortly before 10
o'clock.

He will be required to show cause
why the child should not be returned
to the custody of the mother, to
whom the little girl was awarded by
the New York courts in 1901, when
the Jennisons separated. The finding
of the father's conduct was remark-
ably clever bit of work by the
mother, who has worked alone and
traced the father and child from
place to place until she located them
across the bay.

ing streets or alleys through cemeteries. Assembly bill 717, authorizing unincorporated benevolent and fraternal societies to purchase, receive or manage real estate without incorporating.

Assembly bill 740, providing that in cases where corporations have failed to pay their license tax, they may become reinstated by coming up to certain requirements.

Assembly bill 760, relating to the duties of county officers.

SLOPE BRIEFS.

Brakeman Killed. REDDING, April 25.—J. R. McDonald, a brakeman on the McCloud River Railroad, was killed last night near McCloud. The hand-brake failed to work, he turned on the air, checking the car so suddenly that he was thrown under the wheels. His family lives in Fruitvale.

Brewer-Cudaby Nuptials. SAN MATEO, April 25.—The marriage of Miss Nora Brewer of San Mateo and Edward I. Cudaby of Chicago was solemnized in St. Matthew's Roman Catholic Church by Arch-bishop P. W. Hordan today. Mr. and Mrs. Cudaby will travel in California before going to Chicago, where they will make their future home.

University Regents. SACRAMENTO, April 25.—Charles S. Wheeler, San Francisco, and P. E. Bowles, Oakland, were appointed today by Governor Johnson to be regents of the state university. Wheeler, who is an attorney of San Francisco, gets the place made vacant by the death of Regent Reinsteiner. Bowles gets the place made vacant by the resignation of Thomas S. Bard.

Commissioner to Turin. SACRAMENTO, April 25.—Governor Johnson today named Robert Lynch of the California development board as commissioner to the Turin exposition in Italy. As commissioner, Lynch will have charge of spending \$10,000 appropriated by the legislature to collect, ship and maintain a California exhibit at the exposition in Italy.

Two Lads Drowned. REDDING, (Cal.), April 25.—Loyal and Marion Melvin of Sacramento, sons of Conductor M. A. Melvin of the Southern Pacific railroad, were drowned in the river today at Lamoine, thirty-five miles north of here. The boys, who were unable to swim, started on a hunting trip with A. Carter and were rowing across the stream when the boat struck a snag and capsized.

OBITUARY.

Francis B. Clarke. PORTLAND (Or.) April 25.—Francis B. Clarke, former president of the Spokane, Portland and Seattle Railroad, died here today, aged 73 years.

Dr. Pedro Arcentales. SAN FRANCISCO, April 25.—Dr. Pedro Arcentales, Consul General of Ecuador in San Francisco for the last five years, died yesterday of pneumonia.

Edward G. Taylor. NEW YORK, April 25.—Edward G. Taylor, for fifteen years superintendent of the Brookline Stock Farm, where James R. Keene and Harry Payne Whitney developed many of their racing horses, was found dead in his bed at the farm yesterday.

George W. Marlor. ROSELLE (N. J.) April 25.—George W. Marlor, cashier and acting

POLICE CHIEF ARRESTS SELF.

Charged With Calling Man a "Hergelaufener Drecker Lump."

(BY DIRECT WIRE TO THE TIMES.) BELLEVILLE (Ill.) April 25.—[Exclusive Dispatch.] Because he called Edward Luetscher a "hergelaufener drecker lump," Chief of Police William Neugebauer had to arrest himself. "Hergelaufener drecker lump," in plain United States, means "itinerant, dirty bum," and Luetscher thought his peace had been disturbed. That was why Neugebauer found a warrant for his own arrest among several legal papers that were handed to him when he entered the courtroom of Justice of the Peace Waglin. Tuesday, Luetscher was arrested on a charge of carrying concealed weapons a week ago. It was on that occasion that Chief Neugebauer is accused of having applied the term to him. "I will be personally responsible for my appearance," said Chief Neugebauer.

GOVERNOR SIGNS MANY BILLS.

One Prohibits County and Township Officials From Taking Collection Outside of the State.

(ASSOCIATED PRESS NIGHT REPORT.) SACRAMENTO, April 25.—Signing assembly bill 293 today, Gov. Johnson put a stop to county and township officials acting as collection agents for private concerns and also puts the clamps on those officers acting as attorneys or advisers. The bill provides as follows: Sheriffs, clerks and constables and their deputies are prohibited from practicing law or acting as attorneys or counselors at law, or as collectors or for any collection agency in the county where they reside and hold office, or from having as a partner, a lawyer, or any one who acts as such, and no county officer, or his deputy, except District Attorneys and treasurers, shall be eligible to the office of notary public, or perform the duties of the same.

Among other bills signed were: Assembly bill 150, which will put a stop to orphanages or private societies placing children in improper homes, and also make a repetition of placing white children in homes of Orientals impossible.

Senate bill 1227, relating to the use of the same street or track by two lines of street railway.

Assembly bill 1527, an act validating a transaction between the State and Sacramento county in the transfer of certain property for use as State fair grounds.

Senate bill 121, providing for the removal of human remains in any city.

Assembly bill 146, relating to the distribution of the estates of deceased persons.

Senate bill 928, relating to open

SOME MUST PAY; OTHERS GO FREE.

RAILROAD COMMISSION PICKS CLASS FOR PASSES.

List Made Out of Persons to Whom Railroads May Grant Transportation Gratis and Without Charge—Pretty Nearly Everything Has Got a Little String to It.

(ASSOCIATED PRESS DAY REPORT.) SAN FRANCISCO, April 25.—The State Railroad Commission announced yesterday the classification of persons to whom railroads are permitted to give free passes or reduced rates. The list follows: Ministers of religion, traveling secretaries of railroad men, religious associations, executive officers, organizers or agents of railroad employees' mutual benefit associations giving the greater portion of their time to the work of any such association; inmates of hospitals and charitable and eleemosynary work; persons and property engaged or employed in patriotic work, whenever the use of such transportation is incidental to or in furtherance of such work; persons and property engaged or employed in educational work or scientific research, whenever the use of such transportation is incidental to or in furtherance of such work or research; provided, however, that this authority shall not extend to persons employed by educational institutions which are run for a profit; to hotel employees of season resort hotels while traveling to or from such employment.

In the case of representatives of executive officers of Chambers of Commerce and other organizations of a like purpose the commission will act on such application as it is made, the understanding being that such application shall be based on a trip that in its purpose is incidental to or in furtherance of the work of the organization.

By the order of the commission all railroad or other transportation companies are directed to furnish the commission quarterly reports giving the details of all free or reduced rate transportation furnished.

BOY DIED OF LOCKJAW.

But the Doctor Called to Attend the Sick Child Had Treated Him Only for Infantile Paralysis.

(BY DIRECT WIRE TO THE TIMES.) STOCKTON, April 25.—[Exclusive Dispatch.] While two physicians were making every effort to save the life of Willie Bowen, a six-year-old boy who was believed to be suffering from infantile paralysis, he died of lockjaw.

The youngster was the son of Mr. and Mrs. William Bowen, and some weeks ago stepped upon a rusty nail which pierced his foot, causing a bad wound. Home remedies were applied, and the boy appeared to have entirely recovered, when a few days ago he was taken ill again. A physician was summoned, and diagnosed the case as infantile paralysis. Another doctor was later called into consultation, but it seems neither were informed about the rusty nail until tetanus had such a grip on the boy that he died.

The physician says that lockjaw in the first stages greatly resembles infantile paralysis, and as there have been numerous cases of this disease here they gave him treatment for the latter, and he is almost beside himself with grief.

MONKEY GOES TO SCHOOL.

The Teacher and the Children Were So Terrified that the Simian Really Learned Nothing New.

(BY DIRECT WIRE TO THE TIMES.) PORTLAND (Or.) April 25.—[Exclusive Dispatch.] Escaping from his cage in a roadside on the section line road, a giant monkey yesterday ran amuck, made his way to the Buckley schoolhouse, located a short distance east, and took possession of the school, ousting the teacher and pupils in terror.

The simian hopped from bench to bench, then back to the desk of the pretty schoolmarm, who had retreated to a safe place outside of the school, thoroughly enjoying his freedom.

Finally one of the boys, braver than the others, caught the animal after a hard struggle, placed it in a sack and carried it to his home, but Mr. Monkey had created such a disturbance that the lesson for the day in the Buckley school were called off.

CLEARED OF RESPONSIBILITY.

AFTERMATH OF BIG FIRE.

(ASSOCIATED PRESS DAY REPORT.) SAN FRANCISCO, April 25.—Claude A. Bantel, who was treasurer of San Francisco at the time of the great fire, was cleared yesterday of liability in connection with the disappearance of \$20,000 from the city funds. He was granted a nonsuit by Judge M. S. Seawell in the Superior Court in which the city had sued him for the recovery of \$14,182, his share of the lost money. Bantel based his claim for a nonsuit on the contention that there was not sufficient evidence to show that the shortage had occurred during his incumbency. He stated that the funds collected by his predecessor had been turned over to him in bulk and that he had taken him some months to segregate the accounts. J. C. Tomalty, who was book-keeper under Bantel, was convicted having falsified his records and is now serving a term of five years at San Quentin.

GOLD-TINGED RELIGION.

Strange British Cult Starts Another Search for Buried Private Treasure on Mysterious Cocos Island.

(BY DIRECT WIRE TO THE TIMES.) SAN FRANCISCO, April 25.—[Exclusive Dispatch.] A small band of religious fanatics is the latest party to join in search for \$60,000,000 treasure buried on Cocos Island.

Captain Parker of the steamer Stanley Dollar, which arrived today from Ancon, brings strange tidings of five men and two women belonging to a mysterious English cult who were landed at Cocos Island on the Central American coast, April 11.

The treasure, which includes many costly jewels, is said to have been stolen from Lima, Peru, by pirates and buried in obscure part of Cocos Island.

The party, which called itself the Davis Company of England, took passage on the Stanley Dollar at Ancon. The expedition was equipped with boats and two tons of provisions.

A. E. L. Mackintosh, who heads the mysterious expedition told Capt. Parker the society had recently received a confession from a seaman, formerly a member of a pirate gang, in which he told where the church treasure had been buried on the island. The reforming pirates also gave them charts which would assist them in locating treasure.

"The party seemed happy and very religious," said Capt. Parker. "They held religious services twice a day."

Many unsuccessful searches have been made for this mysterious treasure on Cocos Island. Expeditions have sailed from here and from Yokohama, Sydney, and Liverpool.

One noteworthy expedition was that headed by the late Admiral Falliser, in command of Esquimalt Station. He took the British cutter Amphion and another vessel, with one hundred men, to Cocos and blasted away the whole hillside in search for treasure, but found nothing.

FIGHT FOR HENRY CHILDREN.

Appeal From Order Placing Them In Detention Home Coming Up Today in Supreme Court in Frisco.

(BY DIRECT WIRE TO THE TIMES.) SAN FRANCISCO, April 25.—[Exclusive Dispatch.] The appeal from the order of Judge Morgan, placing the two Henry children in the Detention Home, will be called tomorrow morning in the State Supreme Court.

Attorney James W. Cochrane, who represents Mrs. Ivy May Henry, said tonight that the other side will ask for a postponement of the hearing on the appeal until Thursday morning, to which he had no objections and the case would probably go over until that time for argument.

The writ granted by Chief Justice Beatty instructs Matron Mary Conlon of the Detention Home to have the two children in court when the case is called. The appeal attacks Superior Judge Morgan's order on the ground of lack of jurisdiction when the writ of habeas corpus was issued.

Attorney Cochrane and S. Foster Kelley, the Seattle banker and alleged ally of Mrs. Henry, were released early this morning from the County Jail, to which they were sentenced to serve five days for contempt of children.

MURDERER GIVEN A RESPITE.

Wife Confesses That Her Infidelity Was Cause of Staying in New York, and Governor Takes Action.

(ASSOCIATED PRESS NIGHT REPORT.) ALBANY (N. Y.) April 25.—On wife's confession of marital unfaithfulness, Gov. Dix today granted a respite to Charles L. Green, who was to have been electrocuted next Tuesday for the murder of his 15-year-old stepdaughter at New Scotland, Albany county, in July, 1910.

Mrs. Green, in her affidavit, confesses that her husband discovered a few days before the shooting that she had been unfaithful to him and she calls this confession the real cause of the tragedy. She swears that her husband would not permit her to testify to anything that would hurt him and hurt her.

NO GUARD ENCAMPMENT.

School of Instruction For State Militia Will Take Place of Annual Event—Cruise For Naval Militia.

(ASSOCIATED PRESS NIGHT REPORT.) SACRAMENTO, April 25.—It has been announced from the office of the Adjutant-General that there will be no National Guard encampment this year. The Coast Artillery section will go into general maneuvers with the army artillery with the big gun and the State naval militia will go on a cruise with a fleet of United States war vessels, using the United States cruiser Barbette. Instead of an encampment, a joint maneuvers will be held at Monterey a school of instruction for National Guard officers from June 1 to 15, and a school for school for the officers of the guard some time after June 15.

POLICE CHIEF ARRESTS SELF.

Charged With Calling Man a "Hergelaufener Drecker Lump."

(BY DIRECT WIRE TO THE TIMES.) BELLEVILLE (Ill.) April 25.—[Exclusive Dispatch.] Because he called Edward Luetscher a "hergelaufener drecker lump," Chief of Police William Neugebauer had to arrest himself. "Hergelaufener drecker lump," in plain United States, means "itinerant, dirty bum," and Luetscher thought his peace had been disturbed. That was why Neugebauer found a warrant for his own arrest among several legal papers that were handed to him when he entered the courtroom of Justice of the Peace Waglin. Tuesday, Luetscher was arrested on a charge of carrying concealed weapons a week ago. It was on that occasion that Chief Neugebauer is accused of having applied the term to him. "I will be personally responsible for my appearance," said Chief Neugebauer.

assistant treasurer of the United States Subtreasury in New York died at his home here today. Mr. Marlor was just completing his forty-sixth year of service in the subtreasury, having been appointed by John A. Stewart, the United States Treasurer under Lincoln.

Rev. Abraham W. Jackson. MELROSE (Mass.) April 25.—The Rev. Abraham W. Jackson, a distinguished Unitarian clergyman and lecturer, who had held pastorates on both the Atlantic and Pacific coasts, is dead at his home here. He was 69 years of age. His first pastorate was at Augusta, Me., and later he was for a number of years located at Santa Barbara, Cal. He taught for a time in the Meadville (Pa.) Theological School and later spent several years on the lecture platform. He was a veteran of the Civil War.

Thomas S. Pinckard. SPRINGFIELD (Ill.) April 25.—[Exclusive Dispatch.] Thomas S. Pinckard, a veteran printer, died Sunday at the home of his daughter, Mrs. J. N. Bullard in Mechanicsburg, this county, aged 78 years. Mr. Pinckard was foreman of the Alton Illinois courier in 1852 when he went to California and aided in putting in the first line of telegraph wire between Sacramento and San Francisco being the first messenger boy in the Sacramento office. He returned to Alton in 1855 and went with Ballhache and Dolbeare, the proprietors of the Courier, to Springfield. In 1858 he entered the employ of the Illinois State Register here and has been with that paper until a year ago. Mr. Pinckard had just returned from Los Angeles where he had been spending a year with his daughter, Mrs. Edmund Patton.

Persistent rumors that friends of President Roosevelt of Panama were seeking his re-election have resulted in an open letter being addressed to the Executive by prominent liberals, in which it is asserted that their party is strongly opposed to such a move.

Housework is hard

work without

Gold Dust

GOLD DUST cuts housework in half. It does all the hard part of the work without your assistance.

GOLD DUST cleans everything cleanable in the home—clothes, dishes, pots, pans, floors, doors, woodwork, refrigerators, bathrooms, sinks, pipes, etc. It will do better work—it will do more kinds of work than soap, or any other cleaner.

If you are trying to run your home without GOLD DUST, you

ARTS MOVEMENT TO RAISE HALF MILLION DOLLARS FOR Y.M.C.A.

One Hundred Business and Professional Men at Luncheon Hear Outlined Plans for Broadening Work of Institution and Pledge Support in Establishing Branches and Caring for Seventy-five Thousand Boys.

A complimentary luncheon given yesterday afternoon at the Hotel Alexandria to Arthur Letts, president of the Young Men's Christian Association, was a landmark event in the history of the institution. A movement was launched to raise the great sum of \$500,000 as a fund to increase the scope of the Los Angeles branch of the Y.M.C.A.

The luncheon was attended by 100 prominent business and professional men of the city. It was called primarily as a complimentary affair to Mr. Letts, and also to hear him deliver a lecture on "Business Building."

About a month ago the board of directors of the Y.M.C.A. decided upon a most important move. After the details of the plan had been thought out, it was decided to invite a number of representative business men of Los Angeles, who were interested in the work of the Y.M.C.A., to meet and discuss the matter.

As a result, Mr. Letts prepared an address on "Business Building," and about 150 business men were invited to meet the directors at luncheon.

OUTLINE PLAN.

D. E. Luther, general secretary, made the principal address. Mr. Letts presiding. Luther outlined the plan and stated that to carry it to completion would entail the expenditure of approximately \$500,000. His remarks were met with enthusiastic applause, and the support of the business men present was eagerly offered.

Luther divided his address into seven sections. He remarked at the outset that each section would be devoted to one of the improvements for which the sum was asked. The seven items for which the money will be used are:

To add two stories to the present Y.M.C.A. building.

To pay for and equip a ten-acre athletic field at Eucalypt Heights.

To erect a building for the colored young men's branch, as Col. Roosevelt recommended.

To establish a branch of the association at San Pedro for seamen and the young men of the harbor district.

To establish branch buildings and meet the needs of the young men east of the Los Angeles river, a territory including from 45,000 to 75,000 persons.

To locate a branch association building in Hollywood and provide the benefits of the association to that section of the city.

To cover a field of 75,000 men and boys.

Luther made a ringing plea for the Y.M.C.A. He told of its tremendous influence in the community among the younger folk and of how it had grown to such great proportions that it was the envy of the cities of the world. He said that it could be amplified to even greater possibilities and potentials and that the time was ripe for the work to start.

At the conclusion of Luther's address, Mr. Letts read a communication from Henry E. Huntington giving \$25,000 as a starter to the \$500,000 fund. Great applause followed this announcement. Mr. Letts then spoke briefly as follows:

"I have just returned from headquarters in New York, and I can tell you, gentlemen, that Los Angeles seems up here throughout our country. I heard the fair names of our city everywhere I went. We are a source of inspiration to many associations. It is not what we have done, but what we will do. There is before you today a great opportunity, a great responsibility. You cannot get from us it."

"You have heard of the work which has been done in that Central Building on Hope street. Our work there and our membership—the largest in the world—is only an incentive to greater work. The recently building in the nature of things cannot meet the need of the thousands of young men and boys in other parts of our growing city. San Pedro is going to be a great shipping center, and we must prepare to be ready when that time comes."

"The great rush of men coming here; the millions of people which within a few years Los Angeles will have, the broad character of the work which is broad enough to be helpful to any man of any creed or any man of any race; all mean that the Y.M.C.A. is a good place to put your money so that you will get results."

"To show you how the institution stands before the general public, I told in my hand an account of a letter which I received from the association made by B. W. Little. So far as we know, Mr. Little had not been in personal touch with the association, but had gained his knowledge in a general way from the press and otherwise. Thus, you see the association has the confidence of the public. I appeal to your spirit of unselfishness. Give to the young man his opportunity. You, like myself, are unable to go out into the highways and beggary in order to call in the young men; therefore, I beseech you to do our work in that other field, making possible for the present generation their share of the work through the association."

"We are going out for half a million dollars as a minimum sum, and we are at least that amount before we begin. I wish to name the following Campaign Committee: E. T. Earl, Mayor Alexander, E. Carr, James Blaisdell, E. Gibson, E. P. Clark, A. B. Cass and A. P. Fleming."

PLANS INDORSSED.

Following Mr. Letts, Mayor Alexander offered the following resolution, which was unanimously adopted:

"Believing, as we do, in the magnificent work of the Young Men's Christian Association, in the interest of the men and boys of this city, and after listening to the carefully formulated plans of the board of directors, presented by the general secretary, and realizing the growing demands necessitated by the rapid development of our city that are being met by the association, and its influence upon the present generation, we meet these demands without a flinch."

"We, therefore, most heartily endorse the plans for an enlarged work, including not less than \$500,000, as outlined, and we pledge the directors of the association our co-operation in carrying out the plans for a greater Young Men's Christian Association work for Greater Los Angeles."

We further urge the citizens of Los Angeles to respond with their characteristic public spirit to this important enterprise which so vitally touches the future of our city."

WHAT IT MEANS.

James Blaisdell, president of the chamber of commerce, was introduced by Mr. Letts and spoke eloquently and briefly on the great work

ham and the other persons concerned went out to the speed-trap on Wilshire boulevard, at its intersection with Winchester, and in tests then conducted, the officers proved that accuracy was possible under the system. They were at fault only when a number of cars entered the trap at once, which resulted in some confusion.

Anderson claimed that several machines were in the trap when he came through. He could not produce evidence, however, to controvert the figures of the officers.

STEPS INTO HIS CHIEF'S PLACE.

SALT LAKE NAMES HALSTED AS GENERAL COUNSEL.

Bank President Takes Position on Board of Directors—Senator Clark Present at Board Meeting, But Leaves for Montana Today—Pacific Electric Promotions.

At a meeting of the directors of the Salt Lake Railroad yesterday morning, A. S. Halsted was elected general counsel to succeed the late W. R. Kelly.

The vacancy on the board caused by the death of Judge Kelly was filled by the selection of J. S. Sartori, president of the Security Savings Bank. The directors present at the meeting included Senator W. A. Clark, president; W. H. Bancroft, vice-president, and the following local directors: T. F. Miller, W. H. McCormick and W. D. K. K.

A. S. Halsted, new general counsel of the Salt Lake Railroad.

by the selection of J. S. Sartori, president of the Security Savings Bank. The directors present at the meeting included Senator W. A. Clark, president; W. H. Bancroft, vice-president, and the following local directors: T. F. Miller, W. H. McCormick and W. D. K. K.

Three years ago, a year after Judge Kelly was made general counsel, Halsted was given the additional title and duties of assistant general counsel. He had not considered the appointment of assistant general counsel to succeed him.

Senator Clark was busy in the Salt Lake headquarters office all day yesterday. He will leave for Montana today. He is the guest of his son, W. A. Clark, Jr., a former vice-president of the company, is expected to arrive in Los Angeles from his trip abroad Friday.

ANNOUNCE PROMOTIONS.

TWO DIVISION HEADS.

Announcement was made yesterday of the appointment of officials to succeed Thomas McCaffery, who recently resigned as superintendent of the southern division of the Pacific Electric, and J. B. Roway, who held a similar position as superintendent of the northern division.

W. T. Maddox, formerly superintendent of the Los Angeles and Redondo and the San Pedro narrow-gauge lines, was named as successor of McCaffery in the southern division, and J. C. McPherson, assistant superintendent of the northern division, succeeds Roway. Both appointments became effective May 1.

McPherson's successor has not been selected. Maddox and McPherson have been long in the employ of the interurban company. McPherson was superintendent of the city lines of the Pacific Electric previous to his transfer to the Los Angeles Railway Corporation.

Shortly after the taking over of the Huntington interurban lines by the Southern Pacific, two divisions were created, with McCaffery as head of the southern division, and with the title of superintendent, and J. B. Roway as head of the northern division. McPherson was made assistant superintendent of the northern division with jurisdiction over the city lines in Pasadena.

Yesterday announcement was made that the Los Angeles and Redondo and the San Pedro narrow-gauge lines would be consolidated with the lines included in the southern division. Hereafter, these lines have been operated as an independent division.

ALASKA SERVICE.

IS EXTENSIVELY USED.

Recently Wells Fargo & Company expressed extended their express service to Alaska. According to reports received by Local Agent Campbell, the new service is being extensively used.

The territory is known as the Alaska-Yukon division, and includes the following lines: The Alaska Coast Company from Seattle to Kodiak; the Alaska Steamship Company from Seattle to Skagway, Seward, Unalakleet, Nome, and St. Michael; the Canadian Pacific Railway from Victoria and Vancouver to Skagway; the Copper River & Northwestern Railway from Skagway to Cordova; the Yukon & White Horse, Dawson, and Caribou to Atlin.

ANOTHER TOGA SULLIED.

(Continued from First Page.)

another man. We agreed to take it up with Loring and it is all fixed."

"Whom did Hines mean by Stephenson," asked Attorney John J. Healy. "I don't know," said Mr. Cook, "but I thought he referred to Senator Stephenson of Wisconsin."

HINES MEETS COOK.

Cook said he saw Hines two or three weeks later in Alfred E. McCord's office in the Rookery building.

"After talking about some business matters," said the witness, "Hines spoke to me of a story about a telephone conversation and said they got it all mixed up. He said they had him talking with former Gov. Yates, whereas he said he was talking with Gov. Deneen. He said he didn't want to betray the confidence of Taft and Aldrich, for if he did he wouldn't dare go back to Washington."

"My impression was that Hines was talking with Deneen when he used the phone in my room in the Grand Pacific but Mr. O'Brien, who was present, insisted Hines was talking with Yates."

Cook admitted he had business troubles with Hines, but said that would not lead him to make a misstatement to the committee.

Wiebe was called to the stand soon after Cook had been dismissed. He testified that the witness, Hines, and only once displayed a touch of the intractability he exhibited when approached by the reporters in Chicago the day after the Burgess testimony. He said that he had called upon Cook and William O'Brien at midnight at the Grand Pacific Hotel on the request of Hines that the two Minnesota businessmen be asked to keep out of the way on account of the Cook county grand jury investigation. He said that he was not interested in the affair, but went from his home to the hotel just because Hines asked him.

THREE ARRESTS ASKED.

The scene shifts to the Senate tomorrow. The committee will hold a crisis in the disposition of the Tilden case. This morning after a long executive session the investigators reported that Edward Tilden, president of the National Packing Company, George M. Benedict, cashier of the Dr. Drovers' Deposit National Bank, and W. C. Cummings, president of the Drovers' Trust and Savings Bank, have ignored the committee subpoenas. The committee asked that warrants be issued for the arrest of these men and that they be brought before the bar of the Senate.

The subject matter was made a special order for tomorrow morning, after which announcement was made that hearings would be granted to the attorney of the committee, John J. Healy, and to the defense attorneys. Tilden will be represented by Nathaniel C. Sears and Ralph Crews of Chicago and William A. Bradley of Springfield. The argument is expected to consume a long time and it may stretch into days.

HANDLING WITH CARE.

The suggestion is current that if the Senate votes to bring the three men before the bar, habeas corpus proceedings will be started without delay. For that reason the Senate committee tonight are holding a conference, going over the entire ground with a view of caulking up all possible loopholes.

In case the effort to bring Tilden and the two bankers to the bar fails, the investigators say that E. will close their inquiry in that direction and that they will merely proceed upon other clues which are being uncovered. Their great fear is that a failure to impose sentence for contempt upon the three men would set a dangerous precedent and that other lawbreakers would snap their fingers at the subpoenas.

CUPID MAKES MISUSE.

Youthful Couple, Embarking on Elopement From This City, Arrested As They Step From Train.

Cupid met with a stern rebuff yesterday morning in Oakland when two of his proteges, Miss Alma Carr, 16 years old, of Watts, and Charles Hemmings, 19 years of age, a stationary engineer employed on the Los Angeles aqueduct, who had fled from this city with the intention of being married, were arrested by Inspector Bock of the Juvenile Court as they stepped from the train at the Sixteenth-street depot in the northern city.

Miss Carr, who was garbed in the dress of a young school girl and wore her hair in braids down her back, said she loved Hemmings and had eloped with him to frustrate parental opposition. She was placed in the care of the prison matron until her parents, with whom Chief of Detectives Peterson of Oakland has communicated, can be heard from.

With the young couple was John Andreas, a friend of the prospective groom, who said he had accompanied them to "give a helping hand when needed."

Both youths are being held by the Oakland authorities.

The auditor aboard the San Joaquin Valley special had noted the extreme youth of the girl and telegraphed to have proper authorities meet them at the depot on their arrival.

WOULDN'T HURT OUR FEELINGS.

Part of Coronation Programme, Picturing American Defeat in Canada, Is Eliminated.

(ASSOCIATED PRESS NIGHT REPORT.) LONDON, April 25.—It was learned today that it was in consequence of communications between London and Washington and hints to the Canadian committee, of which Lord Strathcona is president, that a decision was reached to eliminate from the coronation programme Canada's principal contribution to the pageantry, "Festival of Empire."

The piece, which has been in course of preparation at the Crystal Palace, was inaugurated by 800 performers, entitled "Chateau Gay," where Canada was held for the "empire." It was intended to represent the defeat through strategy of the invading American force in 1812 by a handful of Canadians.

After consideration it was thought that the present might wound the susceptibilities of American visitors to the coronation and might endanger the conclusion of the proposed Anglo-American arbitration treaty.

Baker Electric

STANDARD

For Fourteen Years

BAKER ELECTRICS have a continuous record of fourteen years of invention and achievement behind them. They represent the highest standard of engineering skill and of structural design in this country. In low consumption of current and high mileage radius they are unmatched by any other car.

We guarantee all BAKER ELECTRICS sold by us at retail, from January 1st, 1911, free of all repairs (including batteries if charged by us) for one year. Tires, accidents and misuse excepted.

BAKER ELECTRICS equipped with Lead Plate, Ironclad or Edison batteries.

FORMER PRISONER TELLS STORY.

Asserts That inmates of Dannemora Prison in New York are subjected to Unbearable Cruelties.

(BY DIRECT WIRE TO THE TIMES.) BUFFALO, April 25.—[Exclusive Dispatch.] George Stanley, 30 years old, of Santa Ana, Cal., was sentenced from New York City two years ago on a larceny charge, to Clinton Prison, Dannemora, New York, and last night he was released from that institution.

This afternoon he stopped off in Buffalo en route to his former home, at Santa Ana, and disclosed tragic treatment by keepers of that prison of recently James Monroe, of Kingston, N. Y., violated a rule in Clinton Prison, and was being taken to a "cell court" for trial, by a keeper, when he made some remark and was knocked to the floor by a club and afterwards shot by the keeper three times. One shot taking effect in the left leg, the second in the chest and the third in the lung. Two other bullets went wild.

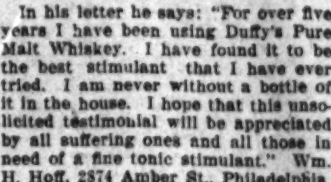

Stanley declares general conditions are most inhuman. At times a man is sentenced to what is known as a "cooler" and locked within for fourteen days at a time. Stanley resumed his trip to California late tonight.

A huge ledge of rock became dislodged from the Railway, a precipitous cliff in the residence section of Little Falls, N. Y., shortly before daybreak yesterday, and plunged downward 200 feet through the roof of the cottage of Fred van Wile. Van Wile was asleep in his bedroom on the second floor and the boulder crashed him, his bed and most of the furnishings of the room, through to the cellar, killing him instantly.

"Best Stimulant In the World"

Mr. Wm. H. Hoff is Never Without a Bottle of This Wonderful Remedy in His Home—It is a Necessity to His Health and Vigor.

In his letter he says: "For over five years I have been using Duffy's Pure Malt Whiskey. I have found it to be the best stimulant that I have ever tried. I am never without a bottle of it in the house. I hope that this unsolicited testimonial will be appreciated by all suffering ones and all those in need of a fine tonic stimulant." Wm. H. Hoff, 2574 Amber St., Philadelphia, Pa.

Duffy's Pure Malt Whiskey is one of the greatest strength builders and tonic stimulants known to medicine. It strengthens and fortifies the system against the attacks of disease and dangerous germs and assists in building up the weakened tissues in a gradual, healthy, natural manner. When taken at meal time it stimulates the mucous surfaces and little glands of the stomach to healthy action, thereby improving the digestion and assimilation of the food and giving to the system its full proportion of nourishment. It is necessary to the digestive process is of great importance, as it brings to all the tissues and organs the purest and most nourishing food to their sustenance and indirectly to the whole system strength and vigor. It makes the old feel young and keeps the young strong and vigorous.

Duffy's Pure Malt Whiskey is the only whiskey that was used by the Government as a medicine during the Spanish-American war.

All druggists, grocers and dealers or direct, \$1.00 a large bottle, 100¢ per bottle. It is a necessity to the health and vigor of the human system.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES

Overcharges Formerly Allowed to Be Stopped.

works in India. The great diversity of religions in India are almost beyond comprehension. The best method India has reached a high idea of God. India has given more time and thought to religion than any other country. Over there her greatest method of religion as do the people here is stocks and bonds. The Christian missionary must teach his religion to the Hindus by living a Christian life.

The Rev. Dr. Leslie E. Leuninger had an excellent paper, "Twentieth Century Interpretation of Ancient Christian Creeds." Other addresses

The selection of officers for next year of the Women's Improvement Association will occur May 3, at the home of Miss Jane E. Collier, No. 518 Madison street. The program for the garden party given at that time. The report of the nominating committee is as follows: President, Mrs. Francis C. Cattern; first vice-president, Mrs. L. M. Mumford; second vice-president, Mrs. W. P. Freeman; corresponding secretary, Mrs. G. C. Rush; recording secretary, Mrs. L. O. Wilcox; treasurer, Mrs. Clara Hathburn; advisors, Mrs. Bertha Moore, Mrs. L. Loughy and Mrs. D. L. Baker.

**Uniform Parade Will Be the
Feature of Day.**

A clever entertainment called "Aunt Jerusha Dow's Living Pictures" was given by the Women's Union last evening. Mrs. Worth Merritt took the part of Aunt Jerusha and turned the leaves of the family album. Some of the old-fashioned scenes were beautiful. "Daddy, I have a costume, a post-bellum dress, a hoop skirt, etc., etc., said 'O, Don't You Remember Sweet Alice, Ben Bolt?'"

The regular monthly meeting of the Cactus Club was held Tuesday evening. Mrs. C. S. Rich gave a splendid paper on "Housing Problems. Miss Eustice gave a solo.

to the Police.

where, and any dealer who hasn't it can know composition for this medicine is as good as the genuine and the druggist good as Dr. Pierce's" is either mistaken or selfish benefit. Such a man is not to be got, priceless possession—your health—*get what you ask for.*

Handsome Light Gray Suits Direct From New York's Most Famous Tailors—\$30.00, \$32.50, \$35.00

In presenting this new line of spring tailor-made suits at the above popular prices we claim to be offering better suit values than Los Angeles women have known before. Particular attention is directed to the materials, the colors and the workmanship of this new collection. You will marvel that so much that is good can be put into suits at these prices.

Of more than passing notice are the materials. They are such as you would expect to find only in suits at double these prices.

The popular light grays predominate, while soft tans, navies and cream colors are here for those who prefer them.

Cross-Stitch Fancy Work 1/3 to 1/2 Less Than Regular

Short, squares, towels and pillow tops stamped in new designs for the popular cross-stitch embroidery, on a splendid quality linen, will be sold today at prices just a third less than regular.

Finished pieces of same will be buyable at half original price. Nearly a hundred pieces to select from.

Seasonable Knitwear

Whatever your need in underwear, this stock is equipped to satisfy it. Whatever weight, style or fabric, whatever price you care to pay, it is here.

This week's feature will be Vests attractively priced.

Clever Detectives, Working on Girl's Good Description and With Evidence Found in House and His Room, Arrest Miss Koebig's Assailant, and He Confesses—Denies Connection With Other Cases.

John Edwards.

the man who attacked Miss Julia Koebig in her home on Monday and was arrested yesterday. The police had such a clear case that he confessed within half an hour.

THE FINDING of a piece broken from a revolver found in the Koebig home, and the subsequent discovery that the fragment fitted the weapon found in the room of John Edwards, a sailor, resulted yesterday afternoon in the arrest of Edwards. He is the man who broke into the home of Julius Koebig, No. 1729 Toberman street, and attacked his daughter, Miss Julia Koebig. When confronted with the evidence Edwards confessed.

A peculiar coincidence in the arrest of Edwards is that the police have had him under surveillance for several weeks, not knowing for what he would ultimately be wanted, but believing that he would bear watching. The accurate description of the man given by Miss Koebig made the capture possible, for it connected the man under surveillance in the minds of Detectives Jones and Boyd with the man who had broken into the Koebig home, and resultant search of Edwards's quarters disclosed the broken and bloody pistol and several other bits of evidence. He was rooming on South Main street near Second.

He did not attempt to resist the officers. "You have it on me," he said. "I can't get away, so I might as well admit I did it."

Edwards was then questioned about the other recent outrages committed on the streets at intervals of a few weeks since August 24, but he denied any connection with them. The police in view of the evidence that has been obtained stated last night that they believe him.

SAYS BURGLARY HIS MOTIVE.
Burglary was Edwards's motive in entering the Koebig home, according to his statement last night. His first attack upon Miss Koebig, he declared, was simply the outcome of his fears that she might scream and summon assistance.

He followed his confession with a brief statement about himself. He did not go into detail on any subject except the crime with which he is charged.

"I came to the Coast from Boston about three months ago and five weeks ago I came to Los Angeles," he said. "I couldn't find any kind of work I wanted, so I thought I would pull off a few small daylight jobs."

"I was taking a stroll out Toberman street Monday afternoon to see what looked good. I saw the woman I suppose was Mrs. Koebig leave the house, and I thought the house was probably then empty, and I could make a nice, quiet haul."

"I watched Mrs. Koebig go down the street toward the car and then went to the house and rang the front door bell five times to see if anyone was home. If someone had answered, I could have stalled off about wanting to know where someone lived, and then left, but Miss Koebig didn't answer, so I thought the house was quiet."

"I went around to the back door and got in, and just as I looked up I saw Miss Koebig come out of the bathroom. I thought she was going to scream, so I told her to keep quiet and show me where the money was. She said she didn't have anything of value, and I got mad."

"I didn't do anything but beat her, but I guess I did enough of that."

Detectives Jones and Boyd, who captured Edwards, laid the evidence before him in a somewhat dramatic manner, and his confession followed shortly.

After deciding that the description given by Miss Koebig of her assailant tallied with that of Edwards, whom they had seen looting about Main street, the police decided to watch him. They followed him to the rooming house near Second and they took their station nearby to watch. A few minutes after he entered the place Edwards appeared and walked south on Main street.

The detectives hurried to Edwards's room and thoroughly searched it. He carried a pistol with him, and the broken revolver. They fitted the portion of the handle they had found in the Koebig home to it, and saw that it belonged there. The weapon was still stained with blood, and in the closet of the room they found the handkerchief on which he had dried his hands, and some of his clothing, which had been stained. The revolver showed the case under advisement during which time counsel for both sides submitted legal authority to substantiate their claims.

Lafferty testified that on January 24 he hired a car at Central avenue and Seventh street, going east on Central. It was crowded, and he was unable to get a seat. He stood on the buffer in the rear and his transfer from another line was tendered and accepted as fare.

MATRIMONY FOLLOWS JOKE.

Son of Los Angeles Contractor Finds Love From Girl in Supplies—Now They Are Married.

Three years ago Miss Elizabeth M. Peterson, an employee in the packing-room of the Stanley Rule & Level Company in New Britain, Conn., placed her name and address in a box of hinges. The hinges eventually were sold to a contractor named North in this city.

North's son, Frederick, found the note on opening the box. Merely as a joke he wrote to Miss Peterson. Letters were exchanged as well as photographs.

Last week North went to New Britain. He and Elizabeth liked each other still better at an interview. So Miss Peterson became Mrs. Frederick North at 2 o'clock yesterday afternoon, the ceremony being performed in St. Mary's Parish House, New Britain, by Rev. John T. Wyler.

Tangled.

SUIT INVOLVES BURIAL PLOT.

OWNERSHIP OF "GOD'S ACRES" NOW HANGS IN BALANCE.

Content is Filled Against an Entry, the Allegation Being That It Was Obtained by Fraud—Relatives and Friends of Those Buried Near Imperial Intervene.

The ownership of "God's Acres," located three miles from Imperial, in which are buried several hundred bodies, was involved in a hearing before the Register and Receiver of the United States Land Office yesterday. After hearing the testimony the matter was taken under advisement.

Some time previous to July 1, 1907, Frederick W. Bishop made a desert land entry of 320 acres in the Imperial Valley. Later Bishop relinquished title to 160 acres to Leroy Holt, a banker of Imperial. Holt formed a cemetery association known as the Imperial Cemetery Association for the benefit of the growing city.

Later on it is alleged that Holt had an understanding with Bishop that the latter was to prove up the land, and turn it over to the cemetery association. It appeared from the testimony that Holt never filed the relinquishment in the local land office.

Bishop then relinquished the same piece of land to his wife, Charline, and she assigned it to Mrs. Ida Wessell, wife of an undertaker in Imperial. When the latter got the land, she organized a new cemetery association, the old organization having passed out of legal existence on account of failure to file the license fee.

The action heard yesterday was a suit filed by Leroy Holt, Edwin F. Hove, Edward of the Imperial Daily Standard, and Frederick H. Wales against the Wessell entry, it being alleged that the latter was secured by fraud.

The Federal officials allowed M. W. Conklin, of El Centro, to file an intervention in behalf of the relatives and friends of those who are buried in the cemetery.

It is understood that Holt, Hove and Wales made but a partial showing of legal title to the land.

MAY ESTABLISH PRECEDENT.

Justice Awards Damages to Trolley Patron Injured Under Peculiar Conditions.

Justice Forbes yesterday handed down a decision in the damage suit of Edward Lafferty, a pipe maker, against the Los Angeles Railway corporation that may establish a precedent in the State for actions of a like nature.

The question to be decided was whether a railway company could be held liable for injuries inflicted upon a patron riding on the outside of a car, in violation of a municipal ordinance. The decision in view of the facts, declares that it can.

The trial was held March 27, and since then Justice Forbes has had the case under advisement during which time counsel for both sides submitted legal authority to substantiate their claims.

Lafferty testified that on January 24 he hired a car at Central avenue and Seventh street, going east on Central. It was crowded, and he was unable to get a seat. He stood on the buffer in the rear and his transfer from another line was tendered and accepted as fare.

As the car turned from Seventh to go south on Main street, the conductor pulled the chain that throws the switch. The front wheels made a turn but the switch was released too quickly and the rear wheels continued on Seventh street, the back of the car colliding with a Stephenson avenue car. Lafferty was thrown off and injured.

The defense, represented by Gibson, Trask, Dunn and Crutcher, maintained that Lafferty was violating a city ordinance by riding on the outside of the car, and therefore was committing an unlawful act, for which the company could not be held liable.

Attorneys McLain, Sparks and Miles asserted that Lafferty had paid his fare and been accepted as a passenger, and that the company was responsible.

An appeal may be made to the Superior Court in which the problem would be worked out as a test case.

INSURGENTS AT RIVERSIDE.

Anti-Suffragists Will Try to Carry Woman's Suffrage by Resolution Against Ballot For Women.

At the Woman's Parliament at Riverside today an effort will be made by the Southern California Association Opposed to Woman Suffrage to induce that body to adopt resolutions against the ballot for women.

The local anti-suffragists have chosen as their Southern California representative Minnie A. Bronson and Mrs. George L. Fischer. Mrs. Bronson was among those who spoke against suffrage in the New York Legislature in 1910, opposing Miss Anna Shaw.

At a large meeting of the Tuesday Afternoon Club, held at the home of Mrs. Gray, No. 412 West Twenty-eighth street, Mrs. Jonathan Scott and Mrs. George J. Chandler delivered addresses opposing political equality.

Mrs. Otto H. Neher read a paper opposing suffrage, by Mrs. George A. Caswell, at the Woman's Club of Asus, today.

LOCAL BOY IN PRISON AS A SPY IN JAPAN

Alfred Fletcher of Covina.

son of a California Episcopal minister, and himself studying for the ministry who was jailed at Tokio Monday on suspicion of being an international spy.

THE flicker of a kodak shutter, in the hands of Alfred Fletcher of Covina, as he came down the gang plank of a steamer at Tokyo, resulted in Fletcher's arrest on suspicion of being an international spy, and with him is detained his chum, James Richardson. The arrest was made four days ago, and is the first adventure encountered by two young California students in an itinerary of two years' tramping, began three weeks ago at Honolulu. Ignorance of the laws of the port, and a desire to illustrate their wanderings with photographs of every phase, has caused a flurry in departmental headquarters of two nations. On receipt of news from the young men that they were prisoners, and that they were to be held as military suspects until an investigation could be made, John Fletcher of San Francisco, brother of Alfred, impromptu President Benjamin Ide Wheeler of the University of California to intercede for the suspects, and a message has already gone forward to Washington, addressed to the Bureau of Foreign Affairs. This action was taken yesterday morning.

Alfred Fletcher is the eldest son of Rev. Alfred Fletcher of Covina, rector of Holy Trinity parish and secretary of Los Angeles Episcopal diocese. He is 24 years old, and is a graduate of the University of California. He is preparing to enter the Episcopal ministry. His traveling companion, Richardson, is a graduate of Dartmouth. Shortly after receiving his diploma at Berkeley, Fletcher carefully laid plans for a world tour. Richardson and he met in Honolulu, where both have been working for some months in preparation for the trip. They had gathered sufficient funds to make the trip possible, the money was turned into letters of credit, and the young men were in durance vile at Tokyo.

Richardson and he met in Honolulu, where both have been working for some months in preparation for the trip. They had gathered sufficient funds to make the trip possible, the money was turned into letters of credit, and the young men were in durance vile at Tokyo.

HE USES POISON SHE A BULL

SUICIDE CLAIMS LIVES OF BAND AND WIFE.

Three Months After Disposal Man's Body Is Found Self-Drowned in City Park, His Lonely Helpless Discouraged and Alone, Found Him to Death.

The cold hand of suicide of again yesterday to wipe out the living member of a once happy family. Frank H. Griffith drank poison in Westlake Park January 18, was found dead the following morning. His wife, Clara, shot her with a revolver in her room at 340 West Seventy-seventh street yesterday morning and died almost instantly.

Mrs. Griffith left no note to explain her act, but G. G. Meyers, in whose home Mrs. Griffith lived, told Coroner, he believed she had been despondent over her husband's illness.

Though she is known to have been connected with the Salvation Army at one time, nothing was known of her at the army's headquarters yesterday afternoon. A search of books for several years back failed to disclose her name as a member.

When the husband's body was found in Westlake Park, a farewell note to Mrs. Griffith was beside it. The note said that the writer was to his mind and did not understand her was about to take his own life.

"Nothing is left but poverty, reads, 'and we cannot both get it. See Mrs. Nellie about my policy, will help you to better things.'"

"I cannot see any reason why Griffith should kill himself unless he was grieving over his death," a neighbor of the Griffiths yesterday said.

"She formerly lived with her husband at Manchester Heights, and was very happy. They had been married several years and had not had heart trouble and had not

CENTRAL SELLS STOCK RIGHTS.

One Hundred Thousand For New Development.

Electric Current Now Used For Drilling Wells.

General News of Interest From Oil Fields.

The Central Oil Company has issued \$100,000 of stock rights which will be effective on May 1st, and which have already been subscribed by the stockholders of the company. This money is to be used in further extension of the company's operations.

W. W. Weaver, president of the Central, was in the field yesterday to witness the performance of these new wells put on the pump. It is estimated that their production will be materially to the output of the city's other producing wells. The present operations of the Central are giving new life to the oil field, and stimulating the activity of the camps. Other companies will be expected to spread out.

At the present time the Central management is running six to seven strings of wells, and within a short time ten will be in operation. The big acreage of the Central, and the recent strikes of light oil, has created a very dangerous situation. Some time ago the dividend paid of the company was increased, and this will not be curtailed because of the improvements contemplated.

The Central is doing something that no other company in the oil field is doing at the present time—using electric current for drilling purposes. The light oil production, accompanied by a heavy gas pressure, makes it impossible to use the ordinary method of drilling. The Central is enabled to work its wells the full twenty-four hours of the day, which is now done in providing a more extensive holding. The use of electricity in drilling operations has been found very satisfactory by the management, and a more exhaustive search will be made in a new well.

The Central Oil Company has a contract with the Standard to deliver to it the light oil it can produce, and a contract is not to be entered into by the management is putting forth every effort to increase its production. Several new locations are being made, and Superintendent Heath, who is in charge of the company's operations, says a busy season is ahead of the Central.

LUKING PALMER OIL.
TWO PIPE LINES BUSY.
Palmers No. 1 and No. 2 are running at a pressure that was not reached last week, and are now producing 14,000 barrels of oil per day. The amount of oil produced in 1910, an increase of 400 barrels per day over the amount it was producing for the past two and a half years. Wells 3 and 4, which are shut down, are being repaired. The completion of repairs on the damaged pipe line. Well No. 5 is shut down at 200 feet with a 2-inch hole and has a very heavy gas pressure. It will be completed in a few weeks. No. 6 is down and shut.

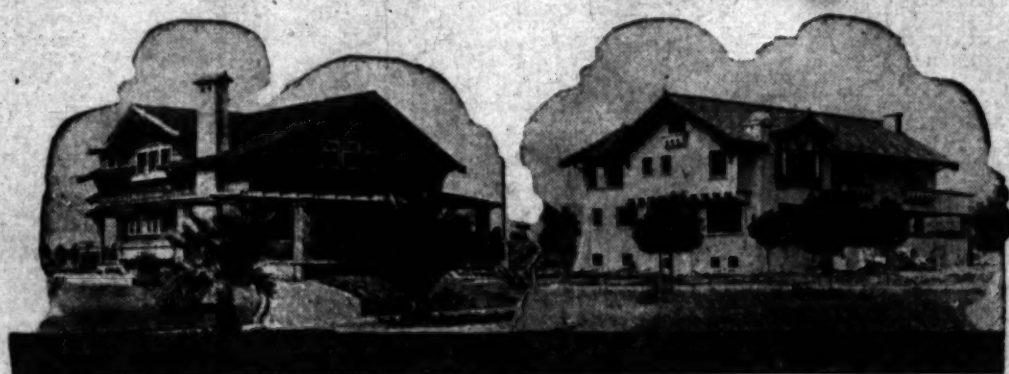

Under well No. 1, which promises to become the biggest producer in the field, is in process of repair. The tremendous gas pressure is being up quantities of sand and some times this must elapse before it is cleared. This has been the case with all the Palmer gushers. Palmer No. 2, No. 3 is about 2000, and No. 4 about 1800 feet deep, and No. 5 is nearly ready to spud in.

Work is rapidly progressing for the completion of the Palmer Union's operations in Ventura county. A new well has already been started on the new lease. On the Midway property there is an increase in the production of the three wells. No. 4 is being repaired, and No. 5 is being repaired.

The Union pipe line has taken 30,000 barrels of oil from the Palmer Union, and from now on both the Union and the Associated Line will take the oil. The contracts call for 60,000 barrels per month each.

CEMENTING THE WELL.
COMPANY NEAR PRODUCERS.
The Ventura and Kern Realty and Oil Company will soon have the well No. 1 of the Lala Oil well shut down. It is expected to tap the oil and close to that depth. The well is about 1000 feet deep, and is about a mile to the southeast. The company has a 200-barrel well at the foot. Not satisfied with that, the superintendent shot a hole with a heavy charge of giant dynamite, and ruined it, and the company has a new hole. The company has a new hole. The company has a new hole.

Visiting Sulphur Mountain.
A party of Eastern people, visiting Sulphur Mountain property of the Atlantic Oil Company. This is attracting much attention. The party is visiting the Sulphur Mountain property, which is a very good result, that was a very good result, that was a very good result.

These newly-erected Beverly Hills residences are typical of the type of homes that are now rapidly rising on the picturesque sites that Los Angeles' finest suburb so excellently affords.

The "quality-test" of a suburban residence district is the character of the BUILDING DEVELOPMENT. Go out and see the building activity at Beverly Hills. Every home builder, without a single exception, has literally "combed Los Angeles and suburbs with a fine-tooth comb" in his search for the ideal living place—before finally choosing Beverly Hills.

This splendidly improved district meets every residential demand. And to make good this seemingly boastful statement, we will review a few of them:

LOCATION—Just "between the city and the sea." High, slightly, well drained. Excellent soil, purest mountain water. Close to the ocean. Invigorating salt air breezes and the "woodsy" odors of the near foothills. The most healthful location in Southern California.

ACCESSIBILITY—Excellent car service via fast L. A. Pacific suburban cars—via Sixteenth street or through Hollywood. Within quick, easy reach of beaches and downtown.

IMPROVEMENTS—\$500,000 worth of public improvements—broad, stately, petro-lithic boulevards—artistic park effects, a delightful water garden, thousands of ornamental trees and shrubs. A big nursery. Fine water system (gas being installed,) electricity, telephones, sewers, etc. The new \$100,000.00 Country Club house adjoins Beverly Hills.

SCENIC ADVANTAGES—Unsurpassed by any Los Angeles suburb. Beautiful setting of verdure-clad foothills. Easy access to picturesque canyons. Encompassing views of mountains, the valley and the entire city.

We could go further—but why talk about it? Go out and see for yourself. And prices are nearly 50 per cent. lower than equally well improved property in any other section. NO 50-FOOT LOTS. All big villa plots—and acreage if desired.

Lots \$1800 and Up

Acreage at relatively low prices; 25 per cent building discount for a short time. Easy terms of payment.

agency. The freighters, the City of Para, the Astor and the Philadelphia, will be the first vessels to burn oil as a fuel.

News Notes and Personal.
Fred McMillan of San Francisco, oil expert for the Balfour-Guthrie Company; R. F. McLeod of the oil department of the same concern, and other representatives of the syndicate were in Bakersfield the other day after a visit to the Lost Hills where the company holds considerable land under claims. Thomas McGinn, who represents Balfour-Guthrie in the Lost Hills, accompanied them back to Bakersfield.

Fred W. Chappell, superintendent, and C. H. Seiders of the Delano Crude Oil Company, which is drilling with a rotary rig on section 20, 27-22 in the Lost Hills, reports that the hole is down over 1200 feet with a fair showing of oil. Robert Radner of San Francisco is drilling on the same section, and lost a string of tools the other day.

E. B. Lathan, geologist of the Kern Trading and Oil Company, accompanied by R. F. Watt, paid a visit last week to the old Wheeler-Bancroft and Tejon sections. Their object is to keep in close touch with the Westlake fields of Kern county.

W. W. Myers, president and manager of the Midway Southern, says the company is down 800 feet with well No. 1, and that drilling is in full blast. The Midway Southern recently changed hands, and a strong effort is being made to discover oil.

W. K. Wilhelm, manager of the Maricopa Queen lease, recently gave a banquet to his twenty or more employees at the boarding house on the property. Work on well No. 3 on this property is going forward with a rush, the eight-inch casing having just been landed at 1200 feet.

J. E. Murphy, auditor of the Ethel D. M. & E. and the J. M. Consolidated oil properties, recently went to his former home in San Francisco and there are reports among his friends in the oil fields that he will not come back alone.

It is reported that the Vanilla Midway has brought in well No. 3 at a depth of 2485 feet. The hole is deeper than wells 1 and 2, which are good producers.

WESTERN BUILDING & INVESTMENT CO.

The organization and financing of Western Building & Investment Company has progressed so favorably that extensive building operations are now in progress on our various tracts. We are now erecting many homes and selling them at prices which will soon yield splendid dividends to the investors in this company. The initial offering of stock at par is nearly exhausted. The next allotment will be sold at a sharp advance.

Stock in this Splendid Home-Building Company now \$1.00 per share—par value.

Western Building & Investment Company is managed by a remarkably strong Board of Officers and Directors. These men—who participate in this investment under the same terms as every one else—give their valuable time without cost to the management of this company.

Every investor who seeks safety and conservatism, sure and continuous profits, should buy Western Building & Investment Company stock now. The price at present is \$1.00—it will never be less.

A Splendid Bungalow \$2300
In Beautiful Hollywood
\$200 Down--\$25 Month
Including Interest

We have several splendid Bungalows in Hollywood which are offered at \$2300—which pays for everything except insurance. These are five room houses in Swiss Chalet or Bungalow style standing on forty by one hundred and thirty-eight feet lots to alley. Everything is complete—light fixtures, mantel, plumbing, panel wainscoting, buffet kitchen, complete bath, etc. These houses lay within two short blocks of the magnificent Hollywood High School, right on the new Highland Avenue car line and between the Hollywood and Colegrove lines. The street is oiled and side walks and curbs are in. These charming places offer the most for your money. We sell them on terms so easy that any one who pays rent can afford to buy one.

Come to our office today and learn more about Western Building & Investment Company Bungalows—we have them in all parts of the city at low prices and on easy terms.

Misses' Dresses and Coats

This season, more than ever before, we have given especial attention to the wants of misses, and have provided for their critical selection a fine assortment of dresses, suits and coats in the latest models and most fashionable materials. We wish to particularly emphasize our showing of

Misses' Peter Thompson Wash Dresses
In linene, gingham, madras, khaki and real linen.

Linene Dresses \$6.50
In white trimmed with color, or blue trimmed with white.

Gingham Dresses \$7.50
Smart model, made of black and white shepherd checked gingham.

Linen Dresses \$10.00 Up
Attractive style, developed in white, natural or colored linens.

Misses' One-Piece Dresses In Colored Linen \$9.00
This beautiful dress is shown in white, blue, pink or tan linen. One-piece model hand-embroidered on waist, belt and cuffs, and tastefully trimmed with cluny lace.

Misses' Coats \$7.50 Up
Our assortment of misses' coats is broad and diversified and includes the latest models. They are shown in plain colored serges. Checked and mixed woolsens. Particular mention is made of a line of

English Top Coats
They are cut along mannish lines and are smart models for misses. Shown in shepherd checks, covert and navy serge.

House Dresses
A New Line Just Received, Goes on Sale To-Day at Each \$1.50

These new dresses are characterized by neatness in style and perfection in fit. They are well made of black and white checked percale, and have Dutch necks and Gibson plaits.

Long, Crepe Kimonos 95c
Excellent Value. These attractive negligees are shown in plain colored cotton crepe, in pink, lavender, navy, black, light blue and red, and are trimmed with a band of Persian coloring. We also show a line of long kimonos in Persian colored cotton chailies at 95c each.

Just received another shipment of Jersey top silk petticoats at \$5.00 each. In black, white and colors.

Beeman & Hendee
447 South Broadway

Misses' Night Gowns \$1.00
These are not the cheap fancy gowns that are often seen on sale, but are made of fine quality nainsook with neat lace edge at neck and sleeves. Good wearing and neat appearing in every way. Sizes 4 to 14 years.

Girls' Colored Bloomer Suits \$1.00
It would be hard to find more desirable play dresses than these. They are great bargains at the price. The styles left are mostly in the small blue and check and chambray. Sizes 2 to 6 years.

HEALTHY HAIR; YOU CAN HAVE IT BY USING SAGE AND SULPHUR

A Harmless Remedy; Make the Hair Grow and Restore Natural Color.

What a pity it is to observe so many people with thin and faded hair, and then realize that the most of these people might have a fine, healthy head of hair if they would but use the simple "sage tea" of our grandmothers, combined with other ingredients for restoring and preserving the hair. No one, young or old, need have gray hair, weak, thin or falling hair, dandruff or any trouble of the sort if they would but use Wyeth's Sage and Sulphur Hair Remedy. On the contrary, it is possible to have healthy, vigorous hair, of perfect color, by a few applications of this remarkable preparation.

Wyeth's Sage and Sulphur Hair Remedy quickly removes dandruff, leaves the scalp clean and healthy, promotes the growth of the hair, restores the natural color of the hair which has become faded or gray. It is a clean, wholesome dressing, which may be used at any time and with perfect safety. Don't neglect your hair. Start today with Wyeth's Sage and Sulphur.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

Events in Local Society

Miss Ella Towne.

daughter of Capt. and Mrs. Nathan Towne, whose engagement to John Henry Bryson, son of Mrs. E. E. Bryson, is announced today.

MISS MARIE STOCKARD'S engagement to young Grover T. Garland, son of William Garland, Westlake avenue, will please their friends, who for some time have anticipated the good news. Miss Stockard is the daughter of Mr. and Mrs. B. Stockard of No. 2211 West Twenty-third street. She was educated in this city and has a large number of close friends. Mr. Garland attended Belmont, and later was graduated from Stanford. The date for the wedding will be announced soon.

Miss Towne to Wed. Capt. and Mrs. Nathan Towne announce the engagement of their daughter, Miss Ella, to John Henry Bryson, son of Mrs. E. E. Bryson of this city, a prominent business man. Miss Towne is a talented young woman who received her education in Boston. She has been chosen for the month of a wedding.

Guests of Mother. Mrs. Paul Burks of Prescott, and Mrs. Murray Sullivan of Salt Lake City are guests at the home of their mother, Mrs. C. Bumiller Hickey, of 1048 Elden avenue. Mrs. Hickey, with her daughters, will be at home Friday afternoon.

Formal Wedding. Mrs. Nellie Hubler of No. 2805 Oakwood avenue, entertained informally with an evening of music. The guests included pupils of the hostess and their friends.

Winter Honored. Mrs. Will Lambourn, of No. 564 Judson street, recently entertained with a bowl shower in compliment to Miss Edna Winter, whose engagement to Alexander Chalmers has been announced. A collation was served in the garden, with a table decked with city blossoms. Games were played at doors, and prizes fell to Mrs. Winter and Mrs. Louis Winter. The table was decorated with blue flowers marked covers for Mrs.

Miss Marie Stockard,

young society girl, who is engaged to Grover T. Garland.

the wedding of Miss Grace Elliott Whitcomb, daughter of Mr. and Mrs. George H. Whitcomb, of No. 1952 Hayes avenue, and Herbert Palmer Rankin of Santa Ana. Rev. Harry Thompson read the service, music for which was rendered by Prof. Thomas Wilde. Miss Jessie Whitcomb attended her sister of honor, and Miss Eloise Strohbridge was bridesmaid. Little Helen Patricia Putnam, niece of Miss Whitcomb, served as flower girl, and Frank N. Rush was best man. The ushers were: William L. Holley and Harold Hopkins. Miss Whitcomb wore a beautiful creation of embroidered net over chiffon tulle. Her bouquet was of lily-of-the-valley and white lilac. Supper was served at the home following the service at the church. Mr. and Mrs. Rankin will reside in Santa Ana.

At Hotel Alvarado. Mrs. William Parsons, a young society woman from Chicago, is again visiting in Los Angeles. She is domiciled at Hotel Alvarado.

At Arrowhead. Guests who are enjoying an outing at Arrowhead include: Mrs. W. N. Griffith, Mrs. G. E. Maynard, Mr. and Mrs. S. R. Greves, U.S.A., W. N. Griffith, Jr., David Housheer, Pasadena; Mr. and Mrs. E. R. Purdy, A. R. Vaughn, C. V. Cain, Miss Elizabeth Hittman, W. F. Chapman, N. E. Mulen, J. H. Latham, George W. Van Alstyne, C. C. Leigh, Tom Poste, F. G. W. Laughlin, Miss W. Laughlin, O. L. Wuerker, E. Needham and Dr. H. Hertz, Los Angeles; F. H. Holyoke, Pasadena; Monroe P. Marks, Los Angeles; Joseph Yoch, Santa Ana; Mrs. Adam P. Hays, Mr. and Mrs. P. J. Moran, Miss Florence Moran, P. O. Johnson, Mrs. Theodore Nicol, Mrs. Lucy Nicolai, M. Nathanson and M. M. Dewey, J. H. Robson, Alice Virginia Hays, Los Angeles.

Wed at Santa Ana. A pretty wedding occurred recently when Miss Loretta Williams of St. Joseph, Mo., was united to Stanley E. Linck of Santa Ana, at the home of her aunt, Mrs. L. F. Wright. The bride was attended by her sister, Miss Mary Williams. The best man was Paul Courtney Carter. The bride was given away by her uncle, L. F. Wright. Miss May Brill had charge of the music. Rev. Father George of St. Vincent's Church performed the ceremony under a bower of Lady Banks' roses and calla lilies.

Alaska Tour. Charles H. Toll, vice-president of the Security Savings Bank, and family; W. H. Allen, president of the Title Insurance & Trust Company, and family; Mrs. O. P. Clark, Mr. and Mrs. Charles Lloyd, Mrs. Moreland, Miss Moreland, Judge and Mrs. James Drake, Dr. and Mrs. P. Judd, will leave shortly for an extended tour of Alaska.

ESCAPES SPEED FINE. Too Many Machines in Trap Set By Officers, TV, Say Positively Which Violated Ordinance.

Upon motion of Dep. Dist. Atty. Graham, the case against George Darling, accused of speeding on Wilshire boulevard, February 22, was dismissed yesterday. The complaining witnesses, Officers Blaylock and Samuelson, testified that they had clocked Darling's machine from their speed-trap, at the intersection of Wilshire boulevard and Winchester avenue. Samuelson took the time, and Blaylock made the arrest. The machine was alleged to have been doing thirty-six miles an hour. The diagram was produced and the method of taking time explained to the jury.

Attorney Cruikshank, who represented Darling, showed by the testimony of R. R. Hutchinson and James F. White, who had been with Darling in his machine at the time the arrest was made that the car had not gone over the eleven-twentieths of a mile contained between the limits of the trap, but had turned into it from a side road, five hundred feet from the finish.

It developed that there were a number of machines in the trap at the same time, and the officers were unable to distinguish in the distance which had violated the ordinance.

Newcomb's 531 CORSET SHOP

Our sales of Bien Jolie Corsets the past thirty days are pretty satisfactory evidence that this corset is genuinely appreciated by discriminating women. Ladies Tailors and costume makers are much pleased with results when fitting over the Bien Jolie. Prices \$5 to \$15. Skilled corsetieres.

Shoes at Cost Plus 5 Per Cent.

More Reasons Why the Regal Shoe Co. Smashed Shoe-Trade Traditions In the Interests of Public Economy

Have You Ever Heard of Stephenson's Cow? When George Stephenson, first builder of steam locomotives, was asked "What would happen to your machine if a cow got on the track?" he replied, with a grin,—"Weel, that would be bad—for the cow!"

When it was declared that the custom of the shoe-trade forbade selling Regal Shoes at any except "even money," half-dollar prices, the Regal Shoe Company said, in substance, "That's going to be bad—for the custom."

Any trade custom that gets in the way of modern, economic progress is liable to be hurt. Sometimes the collision is long delayed, but it is sure to come. And the public always gains by it.

Referring to a Historic Collision Some years ago, the Regal Idea collided violently with the tradition that shoes could not be sold except through jobbers. But the jobber was brushed off the Regal track and Regal Shoes were sent straight through to their wearers by way of Regal's own stores and agencies.

The trade sent up howls of pity and protest, but the money and time saved by cutting out the jobber made Regal Shoes the best values the public had ever seen. Regal success dates from that collision, and the road they cleared has been used by many manufacturers since.

Now They Have Knocked Another Obstruction Off the Track This obstruction was the shoe-trade custom of invariably marking standard makes of shoes at certain arbitrary "even money" prices—prices that were always multiples of a half-dollar.

All your life, until now, you have paid for every pair of good shoes you have ever bought some price measured in full dollars or half-dollars. It was always \$3.50, or \$4, or \$4.50, or \$5, or so on, upward.

This is a custom that, if rigidly followed, is economically wrong in a dozen different ways—all of them bad for the consumer and some of them bad for the manufacturer as well.

Some of the Ways It is Wrong It forces manufacturers to build shoes to fit certain prices, instead of building shoes exactly as they ought to be built and letting the prices fix themselves. It prevents the manufacturer from reducing his retail prices when leather goes down a little (because he cannot make a reduction of less than a full half-dollar) and yet it might make him put his retail price up one full half-dollar jump if leather went up ever so little.

It is a custom that compels you to pay in half-dollars when the price might often be reckoned in quarters or dimes or nickels. That is to say, a shoe that could be sold at, say, \$4.35, must either be "built up" to cost \$4.50 or trimmed down to cost \$4. In the first case you lose in money; in the second, you lose in quality.

In short, it is a custom that blocks the way of the "Regal Idea"—which is to get Regal Shoes to the public at the narrowest possible margin of price over cost.

Therefore Regal Ran Straight Over It The crash of the collision is echoing all through the shoe trade. But, as before, many of the shoe-men who now stand aghast, or rise to call us "Price Cutters," will eventually follow the track that has been cleared for them.

Regal Shoes Are Now Sold At What It Costs To Make Them, Plus 5 Per Cent. Commission And What It Costs To Sell Them.

The price, whether it figures in "odd" money or in "even" money, is verified by chartered public accountants and STAMPED ON THE SHOE AT THE FACTORY. This stamp is your guarantee that the Regal Shoe you buy is the best shoe that can be bought for the price you pay.

FIRST NO-HIT, NO-RUN GAME.

'Ansome' Arry Sutor Had Oaks Buffaloed.

Pitchers' Battle Between the Southpaws.

Sutor Is From Missouri: He Showed the Seals.

SAN FRANCISCO, April 25.—[Exclusive Dispatch.] Turn the spotlight on 'Ansome' Arry Sutor of Sedalia, Missouri, and let him parade in the radiant glow while you ponder over what the big pitcher did to the Oaks at Recreation Park yesterday with that mighty left arm of his. Set off the fireworks beforehand and get ready for a rousing cheer for 'Ansome' Rud Pernoll and Mose Sutor, then none.

Sutor did nothing less sensational and record-breaking than to twirl the first no-hit, no-run game of the season. He had the Oaks baffled to a fare-you-well. They might just as well have done their batting by telephone for all the good they accomplished. Sutor worked his wide-sweeping curves and that fast ball of his with the jump on it and the big fellow never shone brighter or to better advantage.

The first clash between the Seals and the Oaks developed into a pitchers' battle between the southpaws. Rud Pernoll and Mose Sutor as early as the first inning and throughout the game the pair struggled on with honors fairly even. Sutor was preventing the Oaks from connecting safely with the ball, but his wildness discounted for the few hits which were made off Pernoll's delivery.

That one inning proved enough to humble the Oaks, too, for the twelfth time in the last thirteen games played. Tennant first up, fanned, but Berry turned and hammered one to the right field fence for a single. Sutor was also fanned and Berry started the drama of wild heaves by trying to steal second.

Pearce played his well of aiming one to the center field, and Hoffman was letter perfect in returning the ball to third with another bad heave and the ball rolled to the Oakland bench. During this series of bad throwing, Berry was hurrying around the sacks and in sliding into third he hit a mix-up with Wolverton. The result was that the Oakland leader missed Hoffman's bad peg and the ball hit the bench, which enticed Berry, under the ground rules, to walk home. And Berry took advantage of his rights to score.

Even without a hit the Oaks managed to make good on their ninth inning finish and troubled the locals for a time.

Thedeman was put in to bat for Coy and Sutor walked him with four pitched balls. Hettling was substituted for Pyl, but he fanned. Right here, however, Sutor came near losing his record of no hits, for Hoffman bounced a slow roller toward second. Sutor made a desperate try and shot the ball at Tennant. Tommy scooped it up in admirable shape, putting out lazy, by a mere fraction. Then Cutshaw fouled out and the game was over.

INSTITUTE FOR AERIAL RESEARCH TO START HERE.

AN effort will be made by men interested in aviation to revive the movement started by Frank Garbutt more than a year ago to establish an Aerial Research Institute near Los Angeles.
Letters outlining the plan and suggesting a co-operative effort to make a great national research station for aeronautics and aviation will be sent this week to Commodore Ryan of the United States Aeronautical reserve, President Collier of the National Council of the Aero Clubs of America and to the Rockefeller Foundation and several scientific bodies. In this movement Garbutt will be given credit for initiating the idea.
The matter was taken up early last year and nearly carried to a conclusion, but other semi-civic questions intervened and it was dropped temporarily. At the time Mayor Alexander was much interested and agreed to co-operate, and the business bodies were to be asked to unite in appointing a Board of Administration.

MANY ENTRIES FOR TIMES TOUR.

The complete list of entries for The Times-to-Lakeside automobile endurance run are to be given out tomorrow. At a late hour the entries were still coming in and, as the limit already is reached, the tour management must finish the elimination contest before the entries are accepted.

The tour will be one of the best of the kind ever held in Southern California. It will include almost every make of motor car represented in this city.

Referee Frank Garbutt will go through the list as soon as it is tabulated and will pass on every car. Chief Observer Guy West will study the names of the observers and will pass on those who are to make the trip.

PUNCHED THE CHAMP. JOHNNY COULON ONLY GETS DRAW.

EDDIE O'KEEFE MADE CLEVER FAST SHOWING.

Both Bantams Went Whole Distance at Top Speed and the Draw Decision Against the Champion Was Well Received by the Crowd at Kansas City.

[BY DIRECT WIRE TO THE TIMES.] KANSAS CITY, (Mo.), April 25.—[Exclusive Dispatch.] Johnny Coulon, bantamweight champion of the world, and Eddie O'Keefe of Philadelphia, fought ten rounds to a draw tonight. The decision was well received.

During the first half of the battle Coulon had a shade the better of it because of his lightning, but O'Keefe did some clever blocking and leading with the left, occasionally shooting over a right to the head which worried the little champion.

In every round, the bantams went at top speed and were fighting as fast

JOHNNY KANE ARRIVES TO PLAY FOR VERNON.

JOHNNY KANE, Happy Hogan's new hope, arrived in Los Angeles yesterday from Chicago and expects to get into the game the latter part of the week.
Kane was ill just before coming west and is not in condition to step right out on the diamond; but by the end of the week he expects to have recuperated and become acclimated sufficiently to play.
Mrs. Kane accompanied her husband and is delighted to get to Los Angeles. She likes the Coast and is glad of the trip. While Kane would have liked to stay in the big leagues, he is glad to get a chance to do regular work for as strong an organization as the Coast League.

Manager Hogan expects to put Kane, at short field for Vernon as soon as the player is in shape to get into the game. He expects great things from the little infielder. When Kane left here several years ago he was a finished player, and with his experience in the big leagues he should make an exceedingly valuable man for Vernon.
Kane was purchased from Seattle in 1906 by the Cincinnati National League team. He played twenty-five games the first year for the Reds, and 130 the second year. Then he was traded to the Chicago Cubs for Durbin and Downey. He played utility, mostly in the outfield, taking part in fifteen games in 1909 and thirty-seven games last year.

Johnny Kane, Infielder.

former Coast League player, who arrived from Chicago yesterday, caught in the act of imagining that Hap Hogan of the Vernon team is tendering him a contract for \$1000 per month. He may play ball today if he feels he is ready. This photograph was taken specially for The Times yesterday.

PLATE GLASS WINS.

Taken Fourth Straight Handily at the Jamestown Meeting—One More Day.

[ASSOCIATED PRESS NIGHT REPORT.] NORFOLK (Va.) April 25.—Plate Glass won his fourth straight victory when he captured the Ocean View purse, beating the field handily at Jamestown track today. Plate Glass ran the seven furlongs in 1:27, the fastest time of the meeting.

Tomorrow will be the final day of the meeting, and the jockey club is donating a percentage of the receipts to charity. Summaries:
Four furlongs: Auto Maid won, Dragnet second, Orion third; time, 0:48.
Hurdles: about a mile and three-quarters: Nick O'Time won, Dr. Heard second, Quincotton third; time, 2:40.

Seven furlongs: Plate Glass won, Phil Mohr second, Compton third; time, 1:27.
Mile: Semi Quaver won, Idlewines second, Little Friar third; time, 1:42.
Seven furlongs: Handrunning won, Narnoe J. V. Jr. second, Ruby Knight third; time, 1:28.
Mile: My Gal won, Tu Nua Da second, Golden Castle third; time, 1:40 4-5.

SMITH BEATS HARRIS.

NEW YORK, April 25.—[Exclusive Dispatch.] Jim Smith, the West Chester heavyweight, out-fought Morris Harris of Philadelphia in the star bout of ten rounds at Brown's Gymnasium tonight. Smith played for the Philadelphia body throughout, and several times had him groggy from hard rights and lefts to the stomach. The bout was one of the fastest seen in heavyweights for some time.

WOMAN ANGLES BIG YELLOWTAIL.

MRS. GARRETT BREAKS WINTER TOURNAMENT RECORD.

After an Hour's Hard Fight, the Flucky Fisher-woman Cried, "My Arm Aches So Much That I Just Can't Hold This Rod Any Longer." Then the Gaff Struck With a Thud.

AVALON, April 25.—Almost every fishing launch in the bay was chartered here today after Mrs. Evelyn Planning Garrett of Los Angeles brought to gaff a yellowtail weighing forty-five pounds. The fish so far is the largest yet entered by any angler in the winter tournament of the Tuna Club. Mrs. Garrett is sure of a gold button, and hopes to carry off many prizes.

Early this morning Mrs. Garrett and her husband left in the fishing launch Ruth. Before the launch was fairly out of the bay she had looked the fish. Immediately there came many shouts of applause from the beach. For a while the school of fish from which the captured one had been hooked, lashed the water into a white foam. Then they disappeared.

Six times the angler had almost succeeded in reeling in her fish to the side of the boat, but it evaded the gaff and darted off with "yards and yards of line." For over an hour the battle continued spectacular. The rod bent to the size of a small hoop as the yellowtail darted in and out moorings and anchor chains in its efforts to gain liberty.

"This time I'm going to give up if it won't come in," she said, with a sigh, as she reeled in the line onto the hot, steaming reel. "My arm aches so much that I just can't hold this rod any longer. It's a big fish, but—" The gaff struck the fish with a thud and the angler collapsed in the bottom of the boat from sheer exhaustion. It was her first angling experience.

If no other catch is made larger than Mrs. Garrett's yellowtail taken today, she will be winner of several cups and other prizes. The tournament closes May 1.
Other anglers, who were admitted to the light-tackle class of the Tuna Club, are: Miss E. L. Haas of New York City, Mrs. Helene G. Haas of New York City, Mrs. J. E. Saunders of Brooklyn, N. Y., C. W. King of Los Angeles, and Miss Isabel Runk of New York City.

WHOSE AUTO WILL BE NEXT?

St. Vincent de Paulists to the Front.

Venice Company Is Making Great Plans.

Route of Joy Ride Chosen. Visit Old Soldiers.

The Society of St. Vincent de Paul, whose warm-heartedness is well known, has come to the front with a keen enthusiasm for the May Day joy ride for the poor children of Los Angeles.

Through the secretary of the society, J. D. Delaney, St. Vincent de Paulists have sent to The Times an offer to help out in every way this outing for the shut-in children.

The society has volunteered to furnish automobiles for part of the children.

BY HARRY CARL.

F. K. McCarrer of the Abbot Kinney Company at Venice, has made better the offer of that company by contributing his own services to the success of the May Day joy ride.

"If you will start them down from the city," said Mr. McCarrer yesterday "you can depend upon me to keep them entertained at the beach."

"I have had all kinds of experience with giving just picnics and I can guarantee that none of those little folks will ever forget their day on the sands."

"My suggestion is, that we turn loose on the sands."

"They can have free run of all the concessions except one that might not be safe for such young children."

"The people who bring down these children in automobiles must not forget to bring warm wraps along as the little chaps get pretty cold sometimes before night. Each automobile owner ought to have some way of identifying his own particular bunch so that, at the end of the day, he can collect them."

It has been decided to follow the following programme on May Day: Automobile owners to drive to the various institutions to which they have been assigned. (Letters of instruction have been mailed making these assignments.)

They will collect the children and proceed at once to the place of rendezvous at Park View and Wilshire boulevard on the west side of Westlake Park.

The start for the beach will be made promptly at 1:20 p.m.

The route chosen is off Wilshire boulevard to the Soldiers' Home, giving the children a chance to see the old veterans at the great war museum just half a century past. This is a sight that will leave a never-to-be-forgotten impression on these little minds.

The route will be along Nevada avenue to Santa Monica; thence along the speedway to Venice.

The return from the beach will be by way of Pico street, or Washington.

F. W. Wicks of No. 114 Heaton street, telephoned to The Times yesterday offering the use of his car, which will accommodate five or six children.

H. W. Houacup of Burbank has offered his Regal 30 with a place for four children.

LOS ANGELES (Cal.) April 25.—[To the Editor of The Times:] Depend upon me to contribute the use of my seven-passenger Stoddard-Dapton for the children's "joy ride" that you are planning. The car has four doors, so the kids cannot fall out, and although I would like to go with my chauffeur and see what fun I will remain at home so as to make room for more. Pile them in thick.

Please let me know where to send the auto, and at what time. Or, better still, let me phone Mrs. Whitten at any time during the day. Home phone 51084. Very truly,
R. H. WHITTEN.

No. 425 East Fifth Street, Angelus University.

CABLE CHALLENGE.

LONDON April 25.—The English Lawn Tennis Association cabled today to the associations of the United States and South Africa, inviting them to send teams to England to play in the preliminary of the Davis cup matches during coronation week.

Billiard Marathon.

NEW YORK, April 25.—In a "marathon" three-cushion billiard game, Sam Lasarus of Pittsburgh defeated Thomas Huxton, former three-cushion champion, early today 537 to 495. It took 837 innings to finish the game, which lasted twelve hours and thirty-five minutes, ending at 2 a.m. No safety play was allowed. Four referees worked in relays.

After All's Said and Done, Mr. Wad is Pretty Much of a Low-Brow!

WHERE WE GET OFF.

BY J. ALEX. SLOAN.

Johnny Kilbane and Joe Rivers went through their daily routine of their respective training camps at Vernon and Venice without incident of unusual interest. Happenings increased his work considerably over Monday and resorted to the medicine ball and wrestling to lighten and harden him. Rivers added up his stunts in his usual way, to wit, with his sparring partners making a good hard sweat.

There is already down to weight and ready to increase his strength and speed while little Mickey is not yet to think about taking of the pounds of what looks to be mostly muscle as he is big and ready to fight.

From the rough, hard work he took forward each day to the light of a lot of pleasure. Out from the camp of the game for the night at the Madison Athletic Club when Ad Wolgast, the featherweight champion, will be the ring with "One-Hand" Hogan for a ten-round bout that promises to furnish many of the questions before the limit is reached.

Hogan believes that he is Wolgast's superior and as to most of the fight fans in the city, they remember how Hogan beat "Knockout" Ketchum after the bout "Ketchum" and "Ketchum" after the bout was over not being in condition. Hogan's match was arranged and Hogan was disappointed but he was to be showing the first prospect of a contest between Hogan and Attell and the match looked as good as made until it came time to sign the contract. Then there was trouble and negotiations were called off when Attell refused to make 115 pounds for Hogan.

But outside of Attell, Hogan has fought most of the featherweights and bantamweights boys and in many instances he has faced the same man two or three times.

The two most important matches now before little Johnny are with Harry Forbes and Frankie Conley. The former has come back strong and in a recent fight at Knoch, Wis. Hogan had to put up the best showing of his career to win over Forbes, who has shown that it is possible to come back after a long absence from the ring. Forbes, a few years ago, was regarded as the greatest little fighting machine in the world, but those who have seen both Hogan and Forbes at their best, say that Johnny has it on Harry every way. Conley lost to Hogan at New Orleans, but Frankie claims that a bad wrist beat him.

Packey McFarland has been offered \$1500, win, lose or draw, to fight Matt Wells, the English lightweight champion, who put it over Freddie Welsh before the latter came to this country. The conditions will be to Packey's liking as Wells wants 135 pounds at 2 o'clock on the afternoon of the day of the battle. Sounds funny to read of this when in this country no contest where the fighters weighed in under these conditions would be regarded as a legitimate light-weight battle. But over in England there has always been a desire to ignore the American customs regarding weights. Should McFarland win and then be unable to make 135 pounds ringside England will continue to hold her lightweight honors as long as Packey remains at the top in the fighting game.

Chicago fight fans are growing very enthusiastic over the coming match between "One-Hand" Hogan and Hugo Kelley. The former's attitude towards himself is responsible for the serious interest created. Thompson sent 1000 real dollars in a wager against Kelley and it sore of carried the fight fans away. Should he lose Johnny will get back in gate receipts more than he has bet on himself for the move he made.

GOSSIP ALONG GASOLINE ROW.

Warren Vance has returned from the Halladay factory. He enjoyed rustication on his cattle range in Wyoming, but the only thing he is sorry about is that he could not stay longer. He was forced to return and attend to business here. The Halladay cars are selling even faster than to place Vance.

The largest and the smallest. The Simplex ninety and the Brush twenty, all entered in the Times Tour to Lakeland. That is going some. Which will win? Well, they will not start in the same class. If anybody should ask you.

If you failed to send in your check last night you lost your only chance to enter The Times Tour. Too bad, but never mind, there will be another next year. This one will be the real goods. One of the best ever.

Leon T. Shettler is back from Salt Lake. He looks well and says the Apperson and Reo business is particularly good.

E. Roger Stearns has put the matter up to the Contest Board of the Automobile Association of America. He is ready to join the tour if granted an armistice. The outlay wants to drive a Vette and would let Eyal Fillmore drive a Ford. Hope Roger can start. I know what it is to feel like an outlaw.

H. O. Harrison will be here again on Thursday. He expects to remain three days and then will fly back East to the Peeters and Everett factories. Harry is doing a big business in the Bay City.

Oscar Werner will drive a Simplex in the Times tour. Ralph Hamilton is entered with a Franklin. Don Lee will be there and Lett S. Shettler is going. Let's get up a race between these celebrities on the Lakeland two-mile speedway. That would be a big drawing card.

George Kuesman will not lose his eye. An optician examined the damaged eye yesterday and found a small piece of steel imbedded in the eye ball, but it will remain there and the Pullman man will not lose his sight.

One of the hardest things to settle is whether an electric should be allowed to enter The Times Tour to Lakeland. The entry list is already large enough to worry the tour management. Still they come though. How about a Stanley Steamer?

The automobile dealers will give a banquet. So will the rubber men. It will be a real feed and will be held at the right place. You are invited.

SHOOTING NOTES.

By Edwin L. Hedderly.

Great wanted to shoot up all the birds there were at the Los Angeles Gun Club's practice Sunday, and entered in all the events. He has had his gold-plated Parker lengthened out until the boys are planning to set him back a yard. He works hard for his birds and is getting them located better each week.

Dave Llewellyn is sleeping better of nights now, and showed up at a trap shoot—the first one in many months. He used to be a regular performer and was warmly welcomed.

Fred Kimble stirred up another batch of his smokeless powder for Sunday's shoot, but in trying to blend mixture that would shoot clean, he cut down the velocity a trifle too much. Ed Mitchell had only two hours of practice but overlooked no chances, shooting nearly as many birds as Gros.

Bull is getting his eye on "em. J. P. wanted to shoot a sixteen at the target and thinks it is fully as good at fourteen yards as the twelve is at sixteen, but thinks the man standing back with a little gun is handicapped.

Bob Bungay doesn't miss enough so any one would fatten much on "em. Jack Sharp had his last shoot with the local boys and is to leave for Salt Lake, his home, this week.

George Peringer is keeping the dope on himself, and draws no little encouragement from the fact that he is getting a few more of the things each week. George is aiming at the 99 per cent. class. He will get there in a month or so at the present rate.

All the boys are improving slowly, some faster than others. Bluecock shots are not born, but made as a general thing. Distances are not a factor and mechanical skill the chief requisite.

BOWLING.

The Brenwoods of Pasadena will lead the league percentage column in the Southern California "A" tournament, and Turner of Los Angeles is at the head of individual list with the excellent average of 200 even for twelve games. Following is the correct 40-2 to date:

TEAM STANDING.

Team	Played	Won	Lost	P. C.
Brenwoods	12	10	2	.833
Los Angeles	12	9	3	.750
Orange	12	8	4	.667
Glendale	12	7	5	.583
Woodland-Hales	12	6	6	.500
San Gabriel	12	5	7	.417
San Jose	12	4	8	.333
San Bernardino	12	3	9	.250
San Luis	12	2	10	.167
San Marcos	12	1	11	.083
San Dimas	12	0	12	.000

INDIVIDUAL STANDING.

Name of player	Played	Wins	Av. Game
Turner	12	10	200.0
Wright	12	9	195.0
Wheeler	12	8	190.0
Wheeler	12	7	185.0
Wheeler	12	6	180.0
Wheeler	12	5	175.0
Wheeler	12	4	170.0
Wheeler	12	3	165.0
Wheeler	12	2	160.0
Wheeler	12	1	155.0
Wheeler	12	0	150.0

ing on Monday evening, and this time the honors were carried away by Miss Myrtle Smith, who made five straight strikes at the beginning of one of her games, and finished with 173. Out of the five remaining frames she got three splits and two "cherries." It looks as if the managerment will have to put up bonnet racks, as one side of the house resembled a millinery store.

BOWLING SCORES.

To settle a dispute that arose at the dinner table Monday evening a match game was rolled on the Grand alley last night between Miss Scott and "Taxi" Frank. The match developed into quite a "hiding" affair, and as Miss Scott and Mr. Frank could stand the teasing best, they won hands down. The score in detail:

Miss Scott 1 2 3 4 5 Ttl. Av.
100 120 130 140 150 540 45.0
Mr. Frank 1 2 3 4 5 Ttl. Av.
110 125 135 145 155 570 46.2

Left Fielder Clarke makes ten put-outs.

ST. LOUIS (Mo.) April 25.—[Exclusive Dispatch.] Fred Clarke, manager and left fielder of the Pittsburgh Nationals, established a new record for put-outs in the two major league games today in the St. Louis game. Clarke had ten put-outs to his credit. The only record exceeding this was made in minor leagues. Dick Harter had eleven put-outs in center field, while he played for Springfield, Mass., September 16, 1892. Shortly after, the old Chicago player in 1910 had 10 put-outs for Grand Rapids August 17, 1897. had thirteen put-outs, the best record ever made by an outfielder. Harter, Pittsburgh's first baseman, had only five put-outs in today's game, while Catcher Olson had seven. Clarke made his worst put-out left field record as follows: First inning, 2; second inning, 1; third inning, 2; fourth inning, 1; seventh inning, 1; eighth inning, 1.

Earle Anthony is here again. He is back from the Packard factory and has much to tell of conditions in the east. He looks better than ever and says business never was better.

Walter Harris, formerly of the Harris & Frank team in the Commercial League, will roll with the Reynolds team in the coming tournament. He is determined to enter a strong team in the new Commercial League Tournament. He has a good bunch to pick from, and says that he intends to give the other teams in this league a demonstration of just why he wants to come in.

The New Majestic Alloys, to be managed by A. B. MacKenzie, will open Sunday, May 7th, with an all-day tournament for Electric and Commercial Leagues. Those bowlers who had no chance to grab the money in the Class "A" all-day tournament can enter this tournament and stand an equal show with the rest. Entries can be made now.

Little "Moccasin" Turner again displayed his class as a ten pin artist when he struck-out from the seventh frame in the Orpheum-Woodliff-Hules game on the Orpheum alleys Monday evening. When he came up in the last frame everything looked ripe for the Woodliffs, but after he had finished it was found they had lost the last game by 15 pins.

The Commercial Ladies' Bowling Club held another enthusiastic meet-

Sporting Comment

BY THE MELANCHOLY DANE.

There is Wrong.

The suspension of Jockey Eddie Moran seems to have stirred up some of the worst friends. The only thing that has been said is that such a suspension is the passage of anti-racing law in all of the decent racing-beds have killed the racing game, and the sooner it is put on the blink the better it will be for the "breeding industry."

Frankie Nicholson.

The fact that Australia can stand the Jack Lester-Bill Lang fight shows that the average sport over the world is as much of a bum as those who call "Champion" Thompson and give him the name, that he can do anything.

There is a writer in the East who writes about the fight with the

American people is that they take Carl Morris too seriously. This is certainly news to the American people, for as far as I have been able to guess, the only person who is able to guess is his own press agent and he is paid for thinking that way. The only thing that any one expects of him is that he will have his block knocked off the first time he fights any good pug.

Something Lacking.

The fellow who recently drove an automobile a mile in twenty-five seconds may be a good sport, but his feat shows that he has more speed than sense. The general run of sports, however, are troubled with the same disease.

Different Methods.

As far as I can guess, the principal reason the American horse owners do not win more races on the English turf is that they cannot use the

Uncle Sam Says, "Date Growing Is PROFITABLE"

He has proved, beyond all question or doubt that there is big money to be made in the Coachella Valley, where his experiment stations are located, in growing this valuable fruit, and that the quality of the crop is the equal of the far famed Tunisian variety.

He has demonstrated that dates will pay dividends of 100% or more in that locality and he offers to show anyone there how to accomplish the same splendid results that he has obtained.

WILL YOU JOIN US and take advantage of his experiments and the knowledge that he has gained through them?

Indio Date & Cotton Company
Gilchrist Investment Company, Agents, Third and Broadway

We have 378 acres of the most fertile land in the whole Coachella Valley, situated just 1/4 mile from one of the Government Experiment Stations at Indio.

And we have organized a Company for the purpose of growing dates according to the proven theories of the Government Experts there.

The Government says to you, "Come to me and learn how to make this crop bring back \$500 per acre."

The company is capitalized for \$100,000 of which \$40,000 has already been subscribed. INVEST NOW! DON'T WAIT!

PASSES AWAY AS HE WISHED.

GOVERNMENT EMPLOYEE'S SUD- DEN END AT HIS HOME.

Surveyed California in Troublesome
Times, Narrowly Escaping Death
at Hands of Indians—Served Dur-
ing War in Hazardous Undertak-
ing—Became Chief Draughtsman.

Full of years and honors, with more than a half century passed in important positions in the service of the country, Joseph R. Mauran, for his past twenty years chief draughtsman in the office of the United States Engineer in this city, died at his home, No. 514 South Figueroa street, Monday evening.

The end came suddenly, almost without warning. Mauran had reached more than the age allotted by the Psalmist of three score and ten, but he had always been active and worked at his desk until a day or two before his death. The immediate cause of his demise is supposed to have been an affection of the heart.

Mr. Mauran was a member of the surveying parties, and had many narrow escapes from death at the hands of the redskins.

When the Los Angeles engineering district was created by Congress in 1859, he was transferred from San Francisco to this city. So diligent was he in his profession that in all the years in which he had been engaged in his chosen work, he rarely took a vacation. He preferred to work out instead of resting out. And he was gratified for he felt with his hand on the plow.

Mauran was born in Providence, R. I., in 1837, and saw his first service in the Everglades of Florida, with a government surveying party. During the war he was sent by the government to Australia to look out for privateers, supposed to be fitting out here in the interest of the Southern Confederacy. He went to San Francisco in 1865, and never again left the Pacific Coast.

Exploration and survey work engaged his attention for years, the field of his operations being California, Nevada and Arizona, under Major Wheeler of the engineering corps. After this he was appointed chief draughtsman in the office of the United States Engineer, General, where he served for 17 years, and after held the post in the San Francisco office.

Mauran made his home with his wife, Mrs. M. L. Orr, on South Figueroa street, where he died. The body was removed to Sutro's undertaking parlors.

He was a member of Occidental Lodge of the local Masonic fraternity. The funeral will be in charge of that order tomorrow afternoon at 2:30 o'clock, with interment in Rosedale cemetery.

PERSONAL.

Dr. L. E. Russell and wife of Cincinnati are among the recent arrivals at the Hollenbeck.

J. E. Smith, who has mining interests near Tonopah, is one of the late arrivals at the Hollenbeck.

Mr. and Mrs. J. S. Harlan of San Francisco are occupying apartments at the Van Nuys. Harlan is rated a specialist.

G. M. Halm, a banker of Phoenix, is making the Westminister his home for a few days.

W. E. Palmer, a rubber goods manufacturer of Akron, is registered at the Hollenbeck.

William H. Edian of New York is at the Hollenbeck. He is an official of the Charles Scribner & Sons, publishers.

Herbert C. Baker of San Francisco is staying at the Van Nuys. Baker is a manager of the Wisconsin Furniture Company.

Dr. A. R. Ross, a San Francisco oculist, is making his home at the Hayward while here on business.

W. W. Price, a dealer in stocks and bonds at Colorado Springs, is staying at the Hayward.

A. M. Harroun, a grain operator with offices in Chicago and Kansas City, is registered at the Hayward.

Frank H. Short, the Fresno political leader and attorney, is a recent arrival at the Hayward.

Mary Moran, who is registered at the Hayward from New York, is playing at the Hayward.

John S. Sipple is passing a few days at the Westminister. Sipple is an attorney.

Mr. and Mrs. A. H. Gracy are at the Van Nuys. They are from Vancouver, where Gracy is an operator.

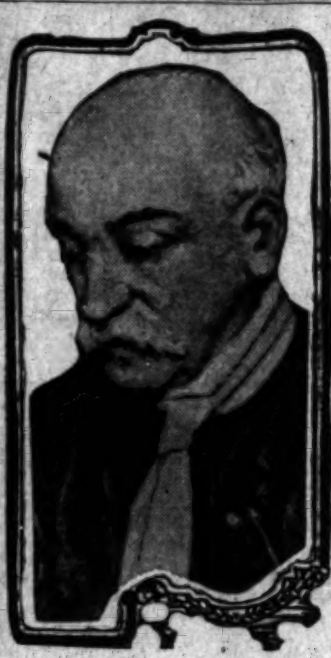

James B. Dermody, who has large interests in the Goldfield district, is passing a few days at the Hayward.

W. J. Bates is among the recent arrivals at the Hayward.

W. J. Bates is connected with the hotel Jefferson.

Allen Hittman, a dairyman and cat-
tler breeder of Portland, is staying at the Westminister.

Mrs. Martin Winch, wife of a hotel

Joseph Russell Mauran.

MUSIC AND STAGE.

(Continued from Fifth Page.)

the comfortable little auditorium, and at the conclusion of the first act there was a veritable flower show, with a line of ushers being tributes to the fair members of Los Angeles' newest stock company. Diverting special-
ties were offered by "Little Nell" Herd and Bob Roberts to amuse during the entre-act waits. It seems safe to predict a lengthy stay for the new com-
pany.

The cast is entitled to praise, as are the stage manager and costumer. The leading roles are played by Miss Irene Lorton and Harry Cornell. Robert T. Hazlett and Miss Elsie Wrenn have the "heavies," while Miss Lulu Sutton, the company's subretrie, Miss Fannie Keeler, Don Churchill, John Thomas and Ralf Belmont supply the comedy.

Margaret Rosa and Bob Burke, who are presenting their comedy playlet, "Stage Aspirations," at the Hyman this week, have a vehicle of mirth and melody. In giving an imitation of a stage-struck girl doing an act for the benefit of a manager, Miss Rosa sings a duet with herself, using both soprano and baritone voices, a range of about three octaves. Then there is a dance in a "hobble" that is full of funny steps. Bob Burke is billed as the "man with the funny legs" and after some time he is bound to admit that he deserves it.

The Kaufmans are entertainers. Little more than children, they successfully essay a pretentious act that is finished in detail. Both sing well and are clever dancers. The act is carefully and elegantly dressed.

Musical Stevens has an act that is distinctly different. He is a good musician and plays entertainingly. His clown makeup is good for a laugh at his entrance and he keeps the fun going.

Madame Kornblum made her first professional appearance at the Hyman this week, with a plian playing and singing act, using the latest popular songs in cornblum.

His vigorous playing and singing act, using the latest popular songs in cornblum. He has a voice of strength and considerable sweetness. His vigorous playing and singing act, using the latest popular songs in cornblum.

The motion pictures were well selected and can be seen only at this playhouse. This is a feature in itself.

The Hyman orchestra, as usual, pleases with its variety of popular selections.

Kindly May Robson, one of the best-loved of American comedienne, will appear at the Mason Opera-house next week in "The Rejuvenation of Aunt Mary." The piece is not new—neither is Miss Robson, exactly—but it is a wholesome comedy and a good entertainment.

Personal left at our desk by Sam Friedman, manager of Sothen-Marlowe, a musical Friedman, manager of the Sothen-Marlowe company, is in town. By a curious coincidence, Samuel Friedman, father of Leon Friedman, is in the city in the interest of the Polles of 1910.

von Grofe-Menasco, and Riccardo Lucchesi.

The April list of Victor records, while without a star or stellar feature of unusual magnitude, contains much that is pleasing to lovers of both good music and what is generally considered not good music, because it happens to be popular.

In the classic-class comes three records by Otto Gorda, the reliable and reliable bass-baritone of the Metropolitan opera company, whose single appearance in Los Angeles, I believe, was made in "Tanzel," in which he played Klingsohn. He sings the "Bird Catcher" song from "The Magic Flute," the "Old Witch" song from "Hansel und Gretel," and Warner's Farewell, from "The Trumpeter of Sakkingen." In all of them he exhibits a voice which, while not possessing the full lustre of youth, is nevertheless a noble organ, dignified by experience.

Gerdine Parer, an exquisite personality as unique and great in her own way as the incomparable Garden, sings "Ben Bolt," "Ora stamm a sentir," from "Tanzel," and Mendelssohn's "O, for the Wings of a Dove."

Louisa Homer, sterling American contralto, contributes "Ah, mon flai" which has been recorded by her to delectation, a very good record of "Che faro senza Euridice," though it doesn't compare with Gerdine's record of the same song.

Antonio Scotti, magnetic and historically resolute, though his voice has lost most of its original power, does the Valentine death scene—"Faust"—in magnificent style, supported by the characteristic raucous chorus.

There is an air from "Vespri Siciliani" by that fine American bass, Wilfrid Mowbray.

In the latter vein Montgomery and Stone appear for the first time on record. Ada Salsoli has another charming selection, a song of band and light opera time-while there is a pleasant surfeit.

OBJECTS TO PULLING STRAWS.

Defeated Candidates for School Trustees to Bring Suit to Oust Successful Ones, Russell District.

County Superintendent Keppel yesterday received word from Mrs. Ella P. Wade, clerk of the Board of School Trustees in the Russell district, that unsuccessful candidates at the recent election for the trusteeship were about to bring suit to oust the incumbent.

The present trustees are Edward Woods, William A. Hudson and Charles M. Thaxter. At the recent election, Thaxter indicated the term of office. Thirty-six ballots did not specify the time.

The losers in the election allege that the latter were illegal. Keppel referred the matter informally to Deputy District Attorneys Keyes and Graham, whose opinion was that the twelve votes were illegal.

After the three men were elected they drew straws to decide which should serve the long term. Some of the defeated candidates object to this manner of settlement.

RECOGNIZES ITS EFFICIENCY.

Many Clerks in Local Postoffice Will Receive Substantial Increases in Salaries Under Recent Rule.

Twenty-eight clerks employed in the local postoffice will profit by increases in their salaries. Starting from April 1, according to advice received yesterday by Postmaster W. H. Harrison from Washington.

The new rate increases the pay of four clerks from \$600 to \$606 a year; three from \$560 to \$566; five from \$520 to \$526; twelve from \$480 to \$486; and four from \$440 to \$446. The increases will add \$2200 to the annual pay roll of the postoffice.

The number of men affected by the increase is the largest ever allowed at one time to a western postoffice, thus indicating the high standard of excellence maintained by the local office.

AN ADAMLESS EVE.

On Friday evening of this week the Choral Club of the Young Women's Christian Association will present an opera entitled, "Adamless Eden." Every member of the club has been helping to make the production a success and the common interest centers about the object of the entertainment, which is to start a scholarship fund for the Music Department. Many girls who have real musical ability are prevented from developing it for financial reasons, and the income from Friday evening will be used in giving help to such girls. The club is directed by Mrs. Caroline Tew.

BUYS ON FLOWER.

A three-story brick apartment-house just completed at No. 212 South Flower street has been sold by H. G. Cotton & Company to J. W. Thayer of the J. W. Robinson Company. The consideration in the deal is reported by the sellers at \$50,000. The property is under lease for five years at \$1000 a year.

Home Builders Declares Cash Dividend April 30

You Can Participate if You Buy Shares This Week.
Guaranty Shares Now \$2.20---Take This Profit.

Here is an enterprise that has never missed a three month's period with a good dividend for its shareholders, besides its cash distributions, it has accumulated a surplus of over a quarter million dollars which also belongs to its shareholders.

No enterprise can show a cleaner record and none makes greater effort to make its stockholders' money safe. Through the offices of the undersigned "General Agency" share buyer is provided ample protection against loss of principal as additional safety in reliability and stability of "HOME BUILDERS." No one has ever lost a dollar through investing in "HOME BUILDERS" shares—no one will so far as sane business method and human skill can provide safety against loss.

"HOME BUILDERS" is, as you must know, a well managed, conservatively profitable building and investment enterprise, and it invites you to join it and co-operate with it in its great activities—this you can do through share ownership with profit and safety.

You Can Buy Guaranty Shares for Cash or on Easy Terms

Guaranty shares are now \$2.20 and all the money you pay in before Saturday night, April 29th, will entitle you to the 4 per cent. cash dividend on each share paid for you get the dividend for February, March and April almost immediately—verily you make your money work overtime. Buy this week sure.

Office Will Be Open Saturday Night Till 9 o'clock

The War Day by D
A Series of Graphic Historical
Times under special arrangement

April 30, 1861—The Content
Were Removed from the
Sent to Illinois.

Capt. Nathani

who succeeded Gen. Harney as commander

Fortress, Ill., by the Century Company. I
FIFTY years ago today a large
quantity of small arms and am-
munition, taken from the threat-
ened arsenal at St. Louis, were re-
moved across the Mississippi to Il-
linois for distribution among the vol-
unteer militia.

The effect of this coup, quickly and
quietly accomplished in the early
morning hours, was not only to fur-
nish arms to men eager to answer
Lincoln's call, but also to make it im-
possible for the southern party in
Missouri to obtain them, and thereby
the better to insure the retention of
that State in the Union.

More than fifty years ago today was
very near joining the ranks of the
Confederacy, and it was only by bold
action that it could be prevented.

From March, when the State con-
vention had voted against secession,
until the importance had happened in
the State until the firing upon Fort
Sumter had marked the beginning of
the war, Missouri's fate hung in the
balance. Lincoln had issued his call
for troops, Missouri's quota being out
of her regiments.

To this Gov. Claiborne F. Jackson,
"Your resolution in my judgment is
illegal, unconstitutional and revol-
utionary in its object, inhuman and
barbarous, and cannot be complied
with."

The Arsenal Threatened.
If such were the Governor's opin-
ion, there seemed little doubt that he
would make every effort to unite his
State to the Confederacy. One step
to such an end would be the posses-
sion of the arms, with cartridges and
ammunition, which were thousands of
pounds enough to equip so large a
force as to make Missouri's retention
in the Union difficult, if not impos-
sible.

Months before Gov. Jackson had
issued his contents, but he had
been issued in time for his defense.
Under Capt. Nathaniel Lyon, a
Missouri Yankee, a veteran of the
Mexican War and a hard fighter, had
been organized to preserve it intact.

War began, however, there was
might be made upon the arsenal by
the friends of the South in and about
St. Louis. That Lyon and his men
were able to resist.

That this danger was by no means
imaginary one is attested by the
fact that from St. Louis uniformed
soldiers, known as "Capt. Lyon,"
were sent to St. Louis April 25 to Atty-
orney General Bates, "that about
